**8:00pm Nova - Alien Planets Revealed**

It's a golden age for planet hunters: NASA's Kepler mission has identified more than 3,500 potential planets orbiting stars beyond our sun. Some of them, like a planet called Kepler-22b, might even be able to harbor life. How did we come upon this distant planet? Combining animation with input from expert astrophysicists and astrobiologists, "Alien Planets Revealed" takes viewers on a journey along with the Kepler telescope. How does the telescope look for planets? How many of these planets are like our Earth? Will any of these planets be suitable for life as we know it? Bringing the creative power of veteran animators together with the latest discoveries in planet-hunting, this film shows the successes of the Kepler mission, taking us to planets beyond our solar system and providing a glimpse of creatures we might one day encounter.

**9:00pm Cancer: The Emperor of All Maladies - Finding The Achilles Heel**

This episode starts at a moment of optimism: Scientists believe they have cracked the mystery of the malignant cell, and the first targeted therapies have been developed. But very quickly cancer reveals new layers of complexity and a formidable array of defenses. Many call for a new focus on prevention and early detection as the most promising fronts in the war on cancer. By the second decade of the 2000s, the bewildering complexity of the cancer cell yields to a more ordered picture, revealing new vulnerabilities and avenues of attack. Perhaps most exciting is the prospect of harnessing the human immune system to defeat cancer. A 60-year-old NASCAR mechanic with melanoma and a six-year-old with leukemia are pioneers in new immunotherapy treatments, which the documentary follows as their stories unfold.

**11:00pm Woodsongs - Mandy Barnett and the Dustbowl Revival**

MANDY BARNETT is a World-Class Vocalist who sings the stylings of pop and jazz standards, torch, and classic country music. A native of Crossville, Tennessee, she started singing at five years-old. As a teenager, Mandy starred as country music legend Patsy Cline in the stage show "Always . . . Patsy Cline" at the celebrated Ryman Auditorium in Nashville, Tennessee. The performances sold out nightly and received rave reviews across the country. Mandy soon began releasing albums under her name including 'I've Got A Right To Cry' which was a huge critical success. Her latest is 'I Can't Stop Loving You: The Songs of Don Gibson'. THE DUSTBOWL REVIVAL is a Venice, California-based collective that merges old school bluegrass, gospel, jug-band, swamp blues and the hot swing of the 1930's to form a spicy roots cocktail. Known for their inspired live sets, the Dustbowl Revival boldly brings together many styles of traditional American music. Imagine Old Crow Medicine Show meeting Louis Armstrong's Hot Seven Band in New Orleans or Bob Dylan and Fats Waller jamming with Mumford & Sons on a front porch in 1938. The band's latest album is 'Carry Me Home'.

**7:30pm California's Golden Parks Shasta**

Repeat of 03/25/15 07:30pm

When most people think of Shasta Lake, they imagine themselves on a houseboat enjoying California's largest manmade reservoir. With 365 miles of shoreline it is a boaters paradise. What most people don't think about is the massive structure that is responsible for holding back the water that creates Shasta Lake. We're talking about 3,460 feet long and 602 feet high Shasta Dam which, is a perfect example of "California's Gold." Construction of the dam started in 1938 and ended in 1945. The spillway is the largest manmade waterfall in the world - three times the height of Niagara Falls. Shasta Dam has the second largest mass of any dam in the United States. In this adventure, Huell and Luis get a behind the scenes look at this engineering marvel. Miles of tunnels and millions of gallons of water make for an exciting day, but there is another aspect to the Shasta Dam - the human element. It is the people who built the dam, the people that poured concrete 24 hours a day for 5 1/2 years and the countless other jobs that make this structure such a gem. Huell meets several of the original dam workers and listens to their stories about the glory days of Shasta Dam.

**8:00pm Nature - Animal Homes: The Nest**

Bird nests come in all shapes and sizes, crafted from a diversity of materials, including fur, grasses, leaves, mosses, sticks and twigs, bones, wool, mud and spider silk. Quite a few contain man-made materials - twine, bits of wire, even plastic bags. Each is a work of art, built with just a beak! All over the world, birds in the wild arrive at diverse nesting grounds to collect, compete for, reject, steal and begin to build with carefully selected materials, crafting homes for the task of protecting their eggs and raising their young.

**9:00pm Nova - Emperor's Ghost Army**

In central China, a vast underground mausoleum conceals a life-size terracotta army of cavalry, infantry, horses, chariots, weapons, administrators, acrobats, and musicians, all built to serve China's first emperor, Qin Shi Huang Di, in the afterlife. Lost and forgotten for over 2,200 years, this clay army, 8,000-strong, stands poised to help the First Emperor rule again beyond the grave. Now, a new archaeological campaign is probing the thousands of figures entombed in the mausoleum. With exclusive access to pioneering research, this program reveals how the Emperor directed the manufacture of the tens of thousands of bronze weapons carried by the clay soldiers, as well as lethal crossbows engineered with astonishing precision. NOVA tests the power of these weapons with high-action experiments and reports on revolutionary 3D computer modeling techniques that are revealing new insights into how the clay figures were made. The program reveals the secrets of one of archaeology's greatest discoveries and brings to life the startlingly sophisticated world of Qin's legendary empire.

**9:00pm Stage 9 - Judy****9:30pm Labyrinth**

Memory, art and hell collide as an Auschwitz survivor finally confronts the horrors of his past after 50 years of silence. Marian Kolodziej was on one of the first transports to enter Auschwitz. He survived five years imprisonment and never spoke of his experience until after a serious stroke in 1993. He began physical rehabilitation by doing pen and ink drawings depicting his memories of the horrific experience at Auschwitz 50 years earlier. Marian's drawings and art installation, which he called The Labyrinth, fill the large basement of a church near Auschwitz. In the documentary, The Labyrinth, Marian takes the audience on a journey through his drawings and art installations. Through the blending of his testimony and graphic drawings, we explore the memories and nightmares that were buried for years. Marian's story of survival and persistence, of life before, during and after Auschwitz are a testament to the human spirit. Marian continued to draw and to speak about his experiences until his death in 2009. Why would a confrontation with death trigger the need to record his long-suppressed memories? Why in this graphic, metaphorical way? The Labyrinth raises these questions in a visually stunning way. This documentary is eyewitness testimony that is unique in the annals of documenting the Holocaust. Marian is Polish Catholic, who used his drawings to give testimony to the horrors of Auschwitz and whose body of work provides a testament to suffering and inhumanity. And yet, it is a story of survival and human resilience.

**9:00pm Nazi Prison Break**

October 14th 2013 was the 70th anniversary of an event that shook the Nazi party to its core. In east Poland, at the remote Nazi death camp of Sobibor, 300 Jewish prisoners staged a bloody break out. To mark the anniversary, this film travels back Sobibor with the last remaining survivors to reveal their extraordinary story of courage, desperation and determination. The film uses brutally honest drama-reconstruction and first hand testimony to reveal the incredible escape story. The multi-layered plot unfolds like a Hollywood blockbuster -- from the last-minute change to the escape plan forced by an unexpected arrival of a train load of SS soldiers, to the systematic luring of individual camp guards to separate locations and different, highly creative deaths, yet every terrible and inspiring moment of this story is absolutely true. (Next Air 04/15/15 02:00am)

**10:00pm Frontline - Memory of the Camps**

A landmark historical film discovered by FRONTLINE in a museum vault decades ago has been called "Hitchcock's lost Holocaust film." First broadcast by the series in 1985, the documentary shows the first horrifying footage shot as Allied troops entered the Nazi death camps. Drawing on initial editing done by famed director Alfred Hitchcock before the film was shelved 70 years ago, FRONTLINE reconstituted the forgotten reels and script and showed them in public for the first time 30 years ago. Finding a good base of operations is key to successfully raising a family. One must find the right stream or tree, the right building materials, neighbors and sometimes tenants. In the wild, every home is a unique DIY project, every head of household a designer and engineer. Cameras chart the building plans and progress of beavers, tortoises, hummingbirds and woodrats, examining layouts and cross sections, evaluating the technical specs of their structures, documenting their problem-solving skills. Animal architecture provides insights into animal consciousness, creativity and innovation.

**9:00pm Nova - The Great Math Mystery**

NOVA leads viewers on a mathematical mystery tour—a provocative exploration of math's astonishing power across the centuries. We discover math's signature in the swirl of a nautilus shell, the whirlpool of a galaxy, and the spiral in the center of a sunflower. Math was essential to everything from the first wireless radio transmissions to the prediction and discovery of the Higgs boson, and the successful landing of rovers on Mars. But where does math get its power? Astrophysicist and writer Mario Livio, along with a colorful cast of mathematicians, physicists, and engineers, follow math from Pythagoras to Einstein and beyond, all leading to the ultimate riddle: Is math an invention or a discovery? Humankind's clever trick, or the language of the universe? The Great Math Mystery is a show for everyone; whether we think we're good with numbers or not, we all use math in our daily lives. The Great Math Mystery sheds fascinating light on how math works in our brains and ponders the ultimate mystery of why it works so well when decoding the universe.

**9:00pm My Lai: American Experience**

What drove a company of American soldiers --ordinary young men from around the country deployed to liberate a small foreign nation from an oppressive neighbor -- to dehumanize and murder more than 300 unarmed civilians? Were they "just following orders" as some later declared? Or, as others argued, did they break under the pressure of a misguided military strategy that measured victory by body count? Today, as the United States once again finds itself questioning the morality of actions taken in the name of war, Academy Award-nominated filmmaker Barak Goodman (The Lobotomist, Scottsboro: An American Tragedy) focuses his lens on the 1968 My Lai Massacre, its subsequent cover-up, and the heroic efforts of the soldiers who broke rank to halt the atrocities. This film draws upon the eyewitness accounts of Vietnamese survivors and the men of the Charlie Company 11th Infantry Brigade and recently discovered audio recordings.

**8:00pm Nature - Animal Homes: Animal Cities**

For some animals, living in the midst of huge colonies of their own kind is the most secure and rewarding housing arrangement. Icelandic puffins form nesting colonies of more than a million, providing shared information about food sources and reducing the odds of attacks on individual birds. But colonies are useful for predators, too. Social spiders in Ecuador work together to capture prey 20 times the size an individual might subdue on its own. For others, communal living provides multi-generational care-giving options or the opportunity to build enormous cities like the acre-wide multi-million-citizen colonies built by leaf cutter ants in Costa Rica, or Australia's Great Barrier Reef, built entirely by tiny corals.

**9:00pm Nova - Invisible Universe Revealed**

Twenty-five years ago, NASA launched one of the most ambitious experiments in the history of astronomy: the Hubble Space Telescope. In honor of Hubble's landmark anniversary, NOVA tells the remarkable story of the telescope that forever changed our understanding of the cosmos and our place in it. From its inception through its early days, when a one-millimeter engineering blunder turned the telescope into an object of ridicule, to the five heroic astronaut missions that returned Hubble to the cutting edge of science, NOVA hears from the scientists and engineers on the front line who tell the amazing Hubble story as never before. This single telescope has helped astronomers pinpoint the age of the universe, revealed the birthplace of stars and planets, advanced our understanding of dark energy and cosmic expansion, and uncovered black holes lurking at the heart of galaxies. For more than a generation, Hubble's stunning images have brought the beauty of the heavens to millions, revealing a cosmos richer and more wondrous than we ever imagined. Join NOVA for the story of this magnificent machine and its astonishing discoveries.

**10:00pm Nazi Mega Weapons - The Siegfried Line**

Five times the length of Hadrian's Wall, Hitler's Siegfried Line was one of the greatest fortifications in the history of warfare. The campaign to breach it took six months and cost the American forces close to 140,000 casualties. This is the story of the men who built it and those who gave their lives fighting to defend - and destroy - it.

**9:00pm Doc Martin - The Wrong Goodbye**

Martin and Pauline are surprised by the number of patients coming to see him on the last day before his Surgery closes and he moves to London. Taxi driver Tommy delivers a patient to the Surgery, but complains of migraine headaches himself. Martin checks him for any serious brain conditions, and tells him to make an appointment with the new doctor if the headaches continue. Martin is driving out of Portwenn with the moving men when he sees Tasha fall from the Harbour Day stage. With a little bit of help from a guilty Bert and Al, he is able to diagnose Tasha's medical condition, and is shocked to learn that she is married to taxi driver Tommy, and that he is driving Louisa to her hospital appointment. Louisa's life is in danger. Martin rushes after Louisa, finding her safe at the scene of a road accident caused by Tommy. Martin and Louisa help Tommy to a nearby inn where his medical condition can be treated; but due to her exertions, Louisa goes into premature labor.

**7:30pm California's Green - Santa Barbara Artists**

Some people talk about the environment. Others actually do something proactive about it. Like the group of 26 Santa Barbara artists who founded the Outdoor Airing Club more than 20 years ago. The O.A.K. Group, as it is known, is made up of artists who paint magnificent, unspoiled open spaces threatened by development. They then sell these art pieces at a special auction with 50 percent of the profits going to organizations in Santa Barbara County working to preserve our precious and unfortunately disappearing open, natural, landscape. Huell spends a day with some O.A.K. Group members as they painted in three different spectacular locales, and then attends the auction several months later. The resulting episode of California's Green is not only beautiful, but inspirational as it shows how important a small but dedicated group of people who really care can be.

**8:00pm Antiques Roadshow - Santa Clara, Hour Two**

ANTIQUES ROADSHOW heads to Santa Clara, where host Mark L. Walberg joins appraiser James Supp at the Pacific Pinball Museum to look at vintage pinball machines. Highlights include a Lambert magician automaton, ca. 1900, that is still in working condition; a Ray Bradbury archive collected by Bradbury's high school English teacher; and Fred Myrick scrimshaw tooth, ca. 1830, that has a long history of family folklore and is appraised for \$150,000 to \$200,000.

**9:00pm Day The '60s Died**

In May 1970, four students were shot dead at Kent State. The mayhem that followed has been called the most divisive moment in American history since the Civil War. From college campuses to the jungles of Cambodia, to the Nixon White House, THE DAY THE 60's DIED returns to that turbulent spring 45 years ago.

**10:00pm Dick Cavett's Vietnam**

On the 40th anniversary of the official end of the Vietnam War, this program examines the war and its impact on America through the prism of interviews conducted by the iconic host of "The Dick Cavett Show," which featured thoughtful conversation and debate from all sides of the political spectrum. The program combines interviews from Cavett's shows with archival footage, network news broadcasts and audio/visual material from the National Archives to provide insight and perspective on this controversial chapter of American history.

**8:00pm Draft**

Race, class, culture - the draft in the 1960s and 1970s was a lightning rod that lit up every schism in American society. But ending the draft has produced unintended consequences, creating a citizenry completely disconnected from that of the soldiers who experience the burden of endless wars. Featuring interviews with the people who fought the draft, supported it and lived its realities, THE DRAFT tells the story of how a single, controversial issue continues to define a nation. Part of PBS Stories of Service.

**8:00pm Nature - Mystery Monkeys of Shangri-La**

This is the true story of a family of Yunnan snub-nosed monkeys living in the highest forests in the world. Only recently discovered, snub-nosed monkeys are hauntingly beautiful primates, gentler than others of their kind. Elfin-like, they seem both childlike and wise beyond their years. The family is led by a formidable fighter and his fighting force who guard a troop of 8-10 families. The survival of this unique monkey society, formed in response to the hardships of the Himalayas, depends on strong defensive strategies and the cooperation and interdependence of them all.

**9:00pm Nova - Dawn of Humanity**

NOVA and National Geographic present exclusive access to an astounding discovery of ancient fossil human ancestors. Located in an almost inaccessible chamber deep in a South African cave, the site required recruiting a special team of experts slender enough to squeeze through a maze of passages. They have brought to light an unprecedented wealth of fossils belonging to a crucial gap in the record of our origins that spans the transition between the ape-like australopithecines (such as the famous Lucy) and the earliest members of the human family. At the center of the discovery is paleoanthropologist Lee Berger, a big character, brimming with enthusiasm and opinions, whose claims have stirred long controversy in the contentious field of human origins. Join NOVA as we solve a two million year-old "crime scene" and dig into extraordinary new clues about what made us human.
