10:00pm Candy Bomber

To children living in the rubble of post-war Germany, it was candy from heaven. Some saw it as a sign that somebody in America cared about them. To Gail "Hal" Halvorsen, who became known worldwide as the Candy Bomber, the Berlin Airlift was the healing balm on the wounds of war. The British, American and Frenchair forces delivered 2.3 million tons of lifegiving supplies on the ground at the three West Berlin airports. There were 277,569 flights over 16 months. Gail and his Air force buddies dropped 20 tons of treats on handkerchief parachutes and delivered 6,500 pounds of chocolate bars to the 1948 West Berlin children's Christmas parties on the ground. Halvorsen, who hailed from Garland, Utah, was a C-54pilot in the summer of 1948 after a Soviet blockade left the vanquished citizens of Berlin's Western zone without food and supplies. Two million citizens faced starvation. Halvorsen was part of "Operation Vittles" that flew in flour, dried food and coal. One day, in a simple gesture of goodwill, Halvorsen gave two sticks of Wrigley's doublemint gum to a few German children watching the planes at Tempelhof Airbase in Berlin. Impressed by how they shared the small treat, he promised to bring more candy the next day and told them to watch for a plane that wiggled its wings. That would mean there was candy on board that he would drop. The children gathered and waited. Other pilots had given Halvorsen their rations for the children. Halvorsen put handkerchief parachutes on the candy to soften the fall. Every day, more children came to wave for candy from Uncle Wiggly Wings. The touching story of one man's efforts to bring a little joy to the children of a defeated enemy are chronicled through first-hand stories from two Berlin children, now in their 70s, Halvorson's friend and fellow airlift pilot, and, of course, Colonel Gail Halverson, The Candy Bomber. After a German reporter was nearly hit in the head by a chocolate bar, the reporter put a story out that went around the world. Halvorsen was told to report to his superiors. Instead of a reprimand, he was told to "keep doing it!" The operation grew organically. Women's clubs tied handkerchief parachutes and two German secretaries were hired to answer all the letters from children, some of whom sent empty handkerchiefs to be refilled. Recognizing the public relations value of the growing operation, Gen. William Tunner sent Halvorsen to New York on a press tour. When stories began appearing on TV and radio, the American Confectioners Association sent 6,500 pounds of candy by boat and rail. A college in Massachusetts organized 22 schools and processed 18 tons of candy in 7 months. One little boy who said his legs weren't long enough to run for the candy sent a letter with a map. He told Uncle Wiggly Wings how to get to the backyard of his bombed out house for a candy drop. When the candy didn't arrive, the boy sent another letter. "You are a pilot. I sent you a map. How did you guys win the war anyway?" Halvorsen mailed him his candy. Grateful children and their parents brought gifts to Halvorsen. In a particularly moving sequence in the film, Halvorsen tells of a little girl who gave him her teddy bear. She told him that during the bombing of Berlin, when they sought shelter in cellars, the teddy bear was always with her. "The Airlift saved my life," she told him. Now, she wanted the good luck bear to save the lives of the men flying the candy planes. "It was such a powerful force," says Halvorsen of the operation that won the hearts of a former enemy. A 60-year old man quietly approached Halvorsen at the 1998 Berlin Airlift Anniversary ceremony. He summed up the true meaning of the gift he had received as a 10-year-old thanks to Halvorsen. "What was important was not the candy bar, but that somebody in America knew I was in trouble and somebody cared. I can live on thin rations," he said, "But not without hope. Without hope the soul dies." (Next Air 12/07/14 10:00am)

7:00pm Classic Hollywood: Musicals

Featuring some of the most iconic images ever recorded on film, these five classic Hollywood musicals - The Wizard of Oz, Yankee Doodle Dandy, Singin' in the Rain, Seven Brides for Seven Brothers, and Viva Las Vegas - will take you on a journey across the Golden Age of movie musicals, spanning the days from the Great Depression all the way to the Civil Rights Movement. With foot-stomping dance numbers, technicolor fantasy worlds, and soaring ballads sung by some of the world's most beloved stars, these movies still inspire audiences to laugh, love and dream - even when times are tough. But bringing a Hollywood classic to life is never easy. The Wizard of Oz director, Victor Fleming once said, "Obstacles make for a better picture," and if he's right, then it's no wonder these movies became great. Discover how these films overcame ballooning budgets, life-threatening injuries, inexperienced actors, dueling egos, and a declaration of war - that literally brought production to a halt - to become some of the most treasured movies in history. These films capitalized on established stars, like James Cagney showing off his song and dance skills as Broadway legend George M. Cohan in Yankee Doodle Dandy; Gene Kelly dancing in the rain at the zenith of his career; and Elvis Presley teaming up with Ann-Margret to set off romantic sparks like the big screen hasn't seen before or since. New stars were born, too: Singin' in the Rain launched the career of nineteen-year old newcomer, Debbie Reynolds, and The Wizard of Oz took sixteen-year old Judy Garland down a yellow brick road to the pinnacle of movie stardom. Perhaps most importantly, these films gave the world truly inspiring musical moments: Gene Kelly singin' and dancin' in the rain, despite a fever; a barn-raising dance number with seven times the romance; a theme song for Las Vegas; patriotic tunes that inspired generations of young soldiers marching into war; and one little girl singing - and dreaming - of somewhere over the rainbow. Join Nick Clooney as he takes you on a journey - alongside some of our greatest movie stars - of laughter and inspiration that will have you singing for days. (Next Air 12/07/14 11:30am)

7:30pm California's Gold - Shasta Dam

When most people think of Shasta Lake, they imagine themselves on a houseboat enjoying California's largest manmade reservoir. With 365 miles of shoreline it is a boaters paradise. What most people don't think about is the massive structure that is responsible for holding back the water that creates Shasta Lake. We're talking about Shasta Dam which, is a perfect example of "California's Gold". Construction of the dam started in 1938 and ended in 1945. It's 602 feet high, 883 feet thick at the bottom, 30 feet thick at the top, and 3,460 feet long. The face of the dam is as big as six football fields and the spillway is the largest manmade waterfall in the world - three times the height of Niagara Falls. There are 18 outlets on the face of the dam, each big enough to drive a pickup through. Shasta Dam has the second largest mass of any dam in the United States. In this adventure, Huell and Luis get a behind the scenes look at this engineering marvel. Miles of tunnels and millions of gallons of water make for an exciting day, but there is another aspect to the Shasta Dam - the human element. It is the people who built the dam, the people that poured concrete 24 hours a day for 5 1/2 years and the countless other jobs that make this structure such a gem. Huell meets several of the original dam workers and listens to their stories about the glory days of Shasta Dam.

9:30pm Great Railway Journeys of Europe

Repeat of 12/08/14 10:00pm

Historian and archetypal Englishman Julian Davidson travels from the frozen wastes of Norway to the sunny shores of the Italian Adriatic coast, sampling the delights of some of the most dramatic and fascinating railway journeys in Europe. In Norway he explores the capital Oslo before boarding the superfast intercity express train towards Bergen. This takes him high into the ice fields, crossing the highest point of any European railway. He takes a detour onto one of the most spectacular pieces of track anywhere in the world called the Flamsbana, and then continues on to Bergen where he visits the home of composer Edvard Grieg. Vienna is Julian's next port of call where he tours the world famous Ringstrasse and Shonbrunne Palace, discovering the facts behind the staggering wealth and achievements of Emperor Franz Joseph's Austro-Hungarian Empire. Hopping onto one of Austria's advanced Railjet passenger trains, he is whisked high into the Alps and the breath-taking mountain line known as the Semmering pass. After a brief stop, he continues on to the end of the line in the beautiful Italian coastal town of Trieste. Glasgow is the second city of Scotland and the start of Julian's journey north into the Western Highlands and four hundred years back in time to learn of feuding kings and fractious clans. He visits the ancient town of Fort William where he climbs aboard "The Jacobite," a lovely old steam train which takes him on a line recognizable for being the "Hogwarts Express" in the Harry Potter film series. He ends in the port of Malaig, hopping off point for the Western Isles. (Next Air 12/14/14 12:00am)

8:00pm Suze Orman's Financial Solutions for You

Repeat of 11/30/14 01:00pm

We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others. (Next Air 12/14/14 01:00pm)

Cold. For centuries we've fought it, shunned it and huddled against it. Cold has always been the enemy of life, but now it may hold the key to a new generation of science and technology that will improve our lives. David Pogue explores the frontiers of cold science, from saving the lives of severe trauma patients and cooling a warming planet to ultracold physics, where bizarre new properties of matter are the norm and the basis of new technologies like levitating trains and quantum computers. In this brave new world, cold isn't to be avoided. Cold is the new hot.

8:00pm Sacred Journeys with Bruce Feiler - Kumbh Mela

Every 12 years, tens of millions of men, women and children gather on the flood plain of the Ganges and Yamuna Rivers in Allahabad, India, for the world's largest gathering for religious purposes. This is the Kumbh Mela, the great Hindu festival when pilgrims bathe where two sacred rivers meet. Such mass bathing has been recorded for more than 2,500 years. Feiler travels to the Kumbh with a group of spiritual seekers from across America. After surviving an out-of-season monsoon that floods much of the Mela camp, they meet with some of India's leading spiritual gurus and join millions of fellow pilgrims in a ritual that Hindus believe washes away sins and breaks the endless cycle of reincarnation.

9:00pm Sacred Journeys with Bruce Feiler - Osun-Osogbo

Feiler travels to Nigeria with a group of African-American pilgrims who are attending an annual festival in honor of the Yoruba goddess Osun. The indigenous African faith, sometimes called Orisa Devotion, was first carried to the Americas during the transatlantic slave trade. In company with pilgrims from Miami, New York and Boston, Feiler visits the last remaining Yoruba sacred grove in Nigeria, now a UNESCO World Heritage site, where the Osun Festival attracts tens of thousands of pilgrims and visitors. As two young American pilgrims are initiated as priestesses to the goddess Osun, a Miami-based priest reveals that music and dance bring most African Americans back to a faith in which culture, art and spirituality are inextricably mixed.
