9:30pm 30 Days to a Younger Heart with Dr. Steven Masley Repeat of 11/29/15 01:30pm

Did you know that it's possible to make your heart 10 years younger? Regardless of your body composition, genetics, or age...you can turn back time. And when you do...you will feel healthier, trimmer, fitter, sexier, mentally sharper and better than you have in a decade. Does it sound too good to be true? It isn't... Steven Masley, MD and his three simple steps have helped thousands of patients turn back the clock...and reverse the onset of aging and disease. He is a board- certified physician, nutritionist, longevity researcher and award- winning educator who is also a highly acclaimed chef, trained at the Four Seasons. In "30 Days to a Younger Heart", Dr. Masley shares the surprising news that Metabolic Syndrome, also known as pre-diabetes - not high cholesterol - is the number one cause of cardiovascular disease. Since the term metabolic syndrome is new to most, the doctor describes how easy it is to determine your risk, and why so many Americans have it. Dr. Masley also educates viewers about the dangers of invasive, often unnecessary cardiovascular procedures. His 3 step Heart Tune-Up program is a guide to making lifestyle changes that significantly reduce the likelihood of developing cardiovascular disease. He specifically discusses the impact food, nutrients and exercise have on making a measurable difference in the reduction of arterial plaque. Discover five new categories of heart-healing foods, learn how the amount of time you exercise isn't as important as you may think plus ensure you receive the five key nutrients many lack but are truly necessary for a younger heart. No matter how old you are, or how much you weigh or even the health battle you are facing, no one has to be on a one-way street to aging and disability. Patients' lives every day have been saved and transformed with this heart tune-up program that explores the three easy lifestyle corrections that can take 10 years off of your heart's age in just 30 Days. 9:30pm Alice's Restaurant 50th Anniversary Concert

It was 50 years ago, in 1965, when Arlo Guthrie took out the trash following a Thanksgiving dinner that "couldn't be beat". It started a chain of events including Arlo's arrest for littering, court appearance, and rejection from military service depicted in his hilarious and iconic song, Alice's Restaurant. The song (an 18 minute musical monologue) went platinum, spawned a full length motion picture, and became an American tradition ubiquitously played on hundreds of radio stations at Thanksgiving. In ALICE'S RESTAURANT 50TH ANNIVERSARY CONCERT, Arlo deftly performs the song for the first time in over a decade and receives a standing ovation from his delighted fans. He also plays other material from the early part of his career, his hits and two new arrangements of previously unreleased lyrics by his father, the legendary folk singer Woody Guthrie. It's a heartfelt evening that examines Arlo's life through his music, which is interlaced with remarkable and often humorous stories. (Next Air 12/06/15 12:30pm)

8:00pm Brain Maker with David Perlmutter, Md

Repeat of 11/15/15 12:30pm

Debilitating brain disorders are on the rise - from children diagnosed with autism and ADHD to adults developing dementia at younger ages than ever before. But a medical revolution is underway that can solve this problem: Astonishing new research is revealing that the health of your brain is, to an extraordinary degree, dictated by the state of your microbiome - the vast population of organisms that live in your body and out -number your own cells ten to one. What's taking place in your intestines today is determining your risk for any number of brain-related conditions. Fresh off his huge public television pledge blockbuster, BrainChange, first released in December 2013, Dr. Perlmutter explains in Brain Maker the potent interplay between intestinal microbes and the brain, describing how the microbiome develops from birth and evolves based on lifestyle choices, how it can become "sick," and how nurturing gut health through a few easy strategies can alter your brain's destiny for the better. With simple dietary recommendations and a highly practical program of five steps to improving gut ecology, Brain Maker opens the door to unprecedented brain health potential.

8:00pm Suze Orman's Financial Solutions for You

We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others. (Next Air 12/27/15 08:00am)

8:00pm Antiques Roadshow - Junk in the Trunk 4, Part 2

ANTIQUES ROADSHOW packed a trunk full of additional treasures from the eight cities that made up its Season 18 tour. ROADSHOW's bigger- than-ever 2014 season includes a second hour of never-before-seen appraisals, such as a collection of 1898 Mardi Gras invitations; Julia Child's copper pans, ca. 1960, that Child used on her TV show; and a German violin with a Sartory bow that is appraised for \$25,000 to \$27,000, with \$20,000 of the value in the bow alone. (Next Air 12/19/15 04:00pm)

9:00pm Antiques Roadshow - Finders Keepers

Tucked behind a fireplace, buried in a cotton field, mistaken for insulation in the ceiling of a basement ... some treasures show up where you least expect to find them. In this new special, ROADSHOW shines a spotlight on items whose discovery was a happy accident. Examples include a formerly buried Weller Coppertone vase that the guest almost tripped over, valued at \$2,500 to \$3,000, and a collection of Cole Porter and Monty Woolley letters, appraised for \$50,000 to \$70,000, that were saved from the dumpster in true trash-to-treasure fashion. (Next Air 12/15/15 01:00am)

10:00pm Independent Lens - Muscle Shoals/Waiting for a Train: The Toshio Hira

Muscle Shoals, Alabama, is the unlikely breeding ground for some of America's most creative and defiant music. There, FAME Studios founder Rick Hall brought black and white together in a cauldron of racial hostility to create music for the generations. This program will air with the short film "Waiting For A Train: The Toshio Hirano Story." (Next Air 12/16/15 04:00am)

8:00pm Prohibition - A Nation of Drunkards

Since the early years of the American Republic, alcohol has been embedded in the fabric of American culture. But by 1830, the average American over 15 years old consumes nearly seven gallons of pure alcohol a year, three times as much as we drink today. Alcohol abuse wreaks havoc on the lives of many families. As a wave of spiritual fervor for reform sweeps the country, many women and men begin to see alcohol as a scourge. After the Civil War, the country's population swells with immigrants, who bring their drinking customs with them from Ireland, Germany, Italy and other European countries. The temperance campaign ignites, spearheaded by the Woman's Christian Temperance Union. Carrie Nation and her Home Defenders Army bring publicity by attacking Kansas bars with stones and hatchets, and the Anti-Saloon League (ASL) forms to push for an amendment to the Constitution outlawing alcohol nationally. Most politicians dare not defy the ASL, and in 1917 the 18th Amendment sails through both Houses of Congress; it is ratified by the states in just 13 months. When the Amendment is signed into law, Prohibitionists rejoice that America has become officially dry. But Americans are about to discover that making Prohibition the law of the land has been one thing; enforcing it will be another. (Part 1 of 3)

10:00pm Frontline - League of Denial: The Nfl's Concussion Crisis, Par

The National Football League, a multibillion-dollar commercial juggernaut, presides over America's indisputable national pastime. But the NFL is under assault as thousands of former players and a host of scientists claim the league has covered up how football inflicted long-term brain injuries on many players. In a special investigation, FRONTLINE and prize-winning journalists Steve Fainaru and Mark Fainaru-Wada of ESPN reveal the hidden story of the NFL and brain injuries, drawn from their forthcoming book *League of Denial: The NFL, Concussions and the Battle for Truth* (Crown Archetype, October 2013). What did the NFL know and when did it know it? What's the truth about the risks to players? What can be done? The FRONTLINE investigation details how, for years, the league denied and worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early onset dementia, catastrophic brain damage, death, and other devastating consequences for some of football's all-time greats. "Honey badger is bad ass." Those words and corresponding video became a YouTube sensation with 51 million hits. This relentless little creature is one the most fearless animals in the world, renowned for its ability to confront grown lions, castrate charging buffalo, and shrug off the toxic defenses of stinging bees, scorpions, and snakes. Little is known about its behavior in the wild or why it is so aggressive. This film follows three badger specialists in South Africa who take on these masters of mayhem in ways that must be seen to be believed. (Next Air 12/17/15 01:00am)

Many "Okies" fled the Dust Bowl in their jalopies with signs reading "California or Bust." Out of options, they often ended up at the " Weedpatch camp," a federal labor and living camp for migrant workers in Kern County. Huell visits this historic camp, later immortalized in John Steinbeck's "Grapes of Wrath," and talks with both the "Okies" who grew up there and the Latinos who now call it home.

8:00pm Prohibition - A Nation of Scofflaws

In 1920, Prohibition goes into effect, making it illegal to manufacture, transport or sell intoxicating liquor. This episode examines the problems of enforcement, as millions of law-abiding Americans become lawbreakers overnight. While a significant portion of the country is willing to adapt to the new law, others are shocked at how inconsistent the Volstead Act actually is. As weaknesses in the law and its enforcement become clear, millions find ways to exploit it. Drys had hoped Prohibition would make the country a safer place, but the law has many victims. Honest policemen are killed on the job, unlucky drinkers are poisoned by adulterated liquor and overzealous federal agents violate civil rights just to make a bust. Alcoholism still exists, and may even be increasing, as women begin to drink in the speakeasies that replace the male-only saloon. Despite the growing discontent with Prohibition and its consequences, few politicians dare to speak out against the law, fearful of its powerful protector, the Anti-Saloon League. 7:30pm California's Gold - Wooden Boats

They come in all shapes and sizes and many date back to the early part of this century. All have been lovingly restored by their owners and are meticulously maintained. In short, they're some of the most beautiful wooden boats ever made. Host Huell Howser gets a close look at these boats as he attends the 24th annual Concours d' Elegance which is dedicated to the preservation and celebration of the wooden boats that have graced Lake Tahoe since the 1920s. He not only talks with the owners about the rich history of their individual boats, but goes out on the clear waters of Lake Tahoe for a ride on some of the fastest boats. It's all part of Wooden Boat Week sponsored by the Tahoe Yacht Club, and after you see these spectacular boats for yourself, you'll agree they are very much a part of "California's Gold."

8:00pm Nature - Magic of the Snowy Owl

Nature explores the world of the snowy owl, a bird recently made popular by Hedwig, Harry Potter's faithful companion. Turning fantasy into reality, "Magic of the Snowy Owl" takes an intimate look at how these majestic birds survive in one of the most isolated and inhospitable places on the planet. Noted wildlife filmmaker Fergus Beeley ("Jungle Eagle") takes viewers deep into the "snowy's" tundra home on the North Slope of Alaska to observe the daily struggles involved in raising a family of helpless chicks until they are able to fly. Viewers will discover that these strikingly beautiful Arctic owls - essentially eagles, falcons and owls rolled into one - have a magic of their own. (Next Air 12/24/15 01:00am)

9:00pm Nova - Building The Great Cathedrals

Carved from 100 million pounds of stone, soaring effortlessly atop a spiderweb of masonry, Gothic cathedrals are marvels of human achievement and artistry. But how did medieval builders reach such spectacular heights? Consuming the labor of entire towns, sometimes taking 100 years to build, these architectural marvels were crafted from just hand tools and stone. Many now teeter on the brink of catastrophic collapse. To save them, an international team of engineers, architects, art historians and computer scientists searches the naves, bays, and bell towers for clues to how the dream of these heavenly temples on earth came true. NOVA's teams perform hands-on experiments to investigate and reveal the architectural secrets that the cathedral builders used to erect their soaring, glass-filled walls. This program reveals the hidden formulas, drawn from the pages of the Bible itself, that drove medieval builders ever upward. (Next Air 12/24/15 02:00am)

8:30pm Roadtrip Nation - The Power of Serendipity

Outside of San Francisco, the team arrives at the Jelly Belly factory to meet with Elise Benstein, a food scientist who develops new Jelly Belly flavors. Elise encourages the Roadtrippers to be open to unplanned opportunity; after all, she never would have thought her job would consist of making Root Beer-flavored candy, but she loves it. From California, the crew winds east to Arizona, where they meet with Deon Clark, a nuclear engineer. Deon joined the navy as a teenager to escape the drugs and violence of his neighborhood, and stresses the importance of rejecting peer pressure. Moving onto New Mexico, the team meets two-time Pulitzer-Prize-winning journalist Paul Salopek, whose non-linear life experiences teach the Roadtrippers to embrace serendipity.

9:00pm Doc Martin - Uneasy Lies The Head

Martin struggles to deal with the news of Louisa's pregnancy. But Louisa is adamant that she does not want Martin involved. She is hired to teach at the local school, but the Headmaster is acting strangely. He has an arm that rises up into the air without him seeming to notice it! The Headmaster comes to see Martin about his constipation, but starts acting in a paranoid manner. Martin notices his strange physical behavior for the first time, but before he can complete his examination, the Headmaster rushes from the Surgery. At the hospital for a routine check-up, Louisa discovers that Edith is going to be her doctor. She also learns something about Martin and Edith's relationship during medical school that shocks her. Upon returning to school, Louisa discovers that the Headmaster has taken her pupils down to the treacherous rock pools of Roscarrock Cove for a nature walk. She alerts Martin and he rushes there to try and save the children.

7:00pm Nature Repeat of 12/27/15 02:00am
Magic of the Snowy Owl

Nature explores the world of the snowy owl, a bird recently made popular by Hedwig, Harry Potter's faithful companion. Turning fantasy into reality, "Magic of the Snowy Owl" takes an intimate look at how these majestic birds survive in one of the most isolated and inhospitable places on the planet. Noted wildlife filmmaker Fergus Beeley ("Jungle Eagle") takes viewers deep into the "snowy's" tundra home on the North Slope of Alaska to observe the daily struggles involved in raising a family of helpless chicks until they are able to fly. Viewers will discover that these strikingly beautiful Arctic owls - essentially eagles, falcons and owls rolled into one - have a magic of their own.

10:00pm Independent Lens - East of Salinas

East of Salinas is a story about immigration, childhood, and circumstance. With little support at home, Salinas, California third grader Jose Ansaldo often turns to his teacher, Oscar Ramos, once a migrant farm kid himself. Oscar helps Jose imagine a future beyond the lettuce fields where his parents work. But Jose was born in Mexico - and he's on the cusp of understanding the implications of that. As we watch this play out, we begin to understand the cruelty of circumstance - for Jose and many millions of migrant kids like him. East of Salinas asks: What is lost when kids like Jose are denied opportunities? (Next Air 12/30/15 04:00am)

Huell travels in search of the geographic center of our state and in the process visits a whole string of towns that lay claim to being "the center of California." With the help of locals and a cartographer from the U.S. Geological Survey, Huell finally locates the exact spot and marks it by planting a state flag.

8:00pm Prohibition - A Nation of Hypocrites

Support for Prohibition diminishes in the mid-1920s as the playfulness of sneaking around for a drink gives way to disenchantment with its glaring unintended consequences. By criminalizing one of the nation's largest industries, the law has given savvy gangsters a way to make huge profits, and as they grow in power, rival outfits wreak havoc in cities across the country. The burgeoning tabloid newspaper industry fans the frenzy with sensational headlines and front-page photographs of murder scenes, while Al Capone holds press conferences and signs autographs. The wealthy Pauline Sabin begins publicly decrying that Prohibition has divided the nation into "wets, dries, and hypocrites." Nearly a century before, women had hoped Prohibition would make the country a safer place for their children. But by the late 1920s many American women believe that the "Noble Experiment" has failed. Sabin unifies women of all classes, refuting the notion that all women support Prohibition and denouncing the law itself as the greatest threat to their families. Sabin and others argue that repeal will bring in tax revenue and provide desperately needed jobs. After the election of Franklin D. Roosevelt in 1932, Congress easily passes the 21st Amendment, which repeals the 18th, and the states quickly ratify it. In December of 1933, Americans can legally buy a drink for the first time in 13 years. (Next Air 12/30/15 01:00am)

7:30pm California's Gold - Blue Angels

They're one of the most famous air squadrons in the world -- serving as positive role models and goodwill ambassadors not only for our Navy, but for our country. We're talking about the Blue Angels who, since first formed in 1946, have been demonstrating their flying skills and maneuvers to literally millions of spectators each year. And for over 30 years the Blue Angels have been a part of "California's Gold." Since 1967 the squadron has spent the winter at Naval Air Facility, El Centro, training pilots and new crew members. The good weather and open spaces make this a perfect place to practice and, over the years, squadron members have become a welcome part of the community in Imperial County during their three months of intensive preparation for the 70 air shows they fly each season. On this particular adventure host Huell Howser accepts an invitation to spend a couple of days with the Blue Angels and ends up not only watching them train, but actually gets to go up with them in an F/A18 Hornet for the ride of a lifetime. Huell also meets former Blue Angel pilots who talk about the "good old days," and visits with local citizens who talk about the pride the community of El Centro feels in having the squadron there each winter. All in all, it's a fast-paced, high-powered, high altitude adventure in search of "California's Gold."

8:00pm Nature - Animal Misfits

Alongside the fastest, strongest, smartest animals are nature's misfits, odd, bizarre and unlikely creatures that at first glance seem ill-equipped for survival. Left at the starting line in the race for life, these are the apparent losers in the story of evolution, yet somehow they manage to cling to life and in some cases even thrive. "Animal Misfits" reveals some surprising details about how evolution really works, demonstrating that all animals are remarkably well-adapted to their chosen way of life. (Next Air 12/31/15 01:00am)
