7:00pm Road Trip - City of Orange

Huell travels to the City of Orange in Orange County to learn about the rich history of this wonderful all American small town. The city historian, Phil Brigandi is Huell's tour guide for the day and they start the adventure in the Plaza to learn about the "circle" in orange and visit one of the many antique shops which line the town center. We'll visit Watson's Drugstore which has been serving milkshakes and filling prescriptions since 1899 and the Orange County Badminton Club the largest badminton facility in the Western Hemisphere that also houses a printing business and Thai restaurant. We'll also visit Pitcher Park, which has several small museums on site and the last remaining packing plant in Orange County, Prime Produce. Huell also visits The Friendly Center, which offers programs and services for the economically less fortunate, as an outreach to the migrant farm workers in Orange's thriving citrus industry. This small town is a real hidden gem.

8:00pm Mr. Stink

Chloe sees Mr Stink every day, but she's never spoken to him, which isn't surprising, because he's a tramp, and he stinks. But before she knows it, Chloe has an unusual friend hiding in her garden shed when it looks like Mr Stink, and his stinky dog Duchess, might be driven out of town. As Chloe struggles to make sure no one sniffs out Mr Stink, she also has to cope with an overbearing mum who is more interested in her own political ambitions than her daughter, her put-upon dad who has a secret of his own, her "perfect" younger sister Annabelle and the nasty girls who make her life miserable at school. There is also one other person with an extraordinary secret, as it turns out that there is more to Mr Stink than meets the eye... or nose. "Mr. Stink" is based on David Walliams' bestselling book. 9:00pm How Sherlock Changed The World

Sherlock Holmes was a scientist who used chemistry, bloodstains and minute traces of evidence to catch the criminal. In an era when eyewitness reports and "smoking gun" evidence were needed to convict criminals, and police incompetence meant that Jack the Ripper stalked the streets freely, Holmes' crime-scene methods were revolutionary. Forensic scientists, crime historians and Sherlockian experts reveal for the first time the astonishing impact the fictional detective had on the development of real-life criminal investigation and forensic techniques. Using a mix of interviews, drama reconstruction and archives, this series tells the story of the impact and legacy of the most famous crime fighter in history.

8:00pm Antiques Roadshow - Vintage Phoenix

ANTIQUES ROADSHOW's first visit to Phoenix was in 1997, when Arizona's biggest story was a UFO sighting dubbed the "Phoenix Lights." Flash forward 15 years for these believe-it-or-not ROADSHOW moments: "Yes Virginia, there is a Santa Claus," the original 1897 letter to the New York Sun, was appraised at \$20,000 to \$30,000 and gets a nice current value of \$30,000 to \$50,000; on the other hand, a circa 1890 mechanical bank, then worth \$3,700, gets a lump of coal and a current value of \$1,000 to \$1,500. 9:00pm D-Day 360

This program charts the vital statistics behind D-Day. It asks what it took to launch the greatest invasion in history. The film examines the numbers behind the operation taking in everything from strategy to logistics; probability analysis to operational decisions. It conveys the enormous scale of the operation through innovative visualization, such as LiDAR scanning of the Normandy beaches which is accurate enough to be used as forensic data by the police. These include the defenses above and below ground which means that an accurate 3D model of the invasion will be able to be built. For example, over 5,000 ships delivered 30,000 military vehicles and 160,000 soldiers onto the beaches. Although there was 80 miles of coastline to aim for, only 5 miles of beach could be landed on and once on shore the men and machines had to pass through the eye of a needle -- a series of narrow exits whose total width measured 80 yards.

10:00pm Independent Lens - How to Survive A Plague

This film is the story of two grassroots coalitions -- ACT UP and Treatment Action Group -- made up of innovative activists, many of them HIV-positive, who fought to turn AIDS from a death sentence into a manageable condition. (Next Air 06/04/14 04:00am)

9:00pm Hallowed Grounds

HALLOWED GROUNDS visits 22 of America's overseas military cemeteries, and tells the story of these remarkable places with historical sequences about the wars and battles that created them, and moving vignettes and interviews about the men and women who rest in them. Created after World War I and World War II, these cemeteries are some of America's great national treasures. HALLOWED GROUNDS provides a rare look at these commemorative shrines and brings them home with stirring images and details. They are located in England, France, the Netherlands, Luxembourg, Belgium, Italy, Tunisia and the Philippines. Each cemetery is a unique expression of commemorative design, with great architecture, breathtaking landscapes, and powerful works of art. All are tangible representations of American values. HALLOWED GROUNDS is filled with tales of sacrifice and courage. Some of the fallen are well known: the poet Joyce Kilmer, the bandleader Glenn Miller, the five Sullivan Brothers, General George S. Patton. But most were ordinary men and women caught up in the calamity of war. These overseas military cemeteries were created to honor America's Fallen, but they are also intended to inspire and teach the living. For in these HALLOWED GROUNDS, one can clearly see the tragic cost of war and the true price of freedom. (Next Air 06/04/14 02:00am)

10:00pm Objects and Memory

This program is about the otherwise ordinary things in our homes and museums that mean the most to us because of their associations with people and experiences. The film examines items recovered or offered in response to 9/11, the Oklahoma City bombing and the Vietnam War, along with stories of people who find them important. Without the objects the stories would lack vibrancy; without the stories the objects would lack significance. Taken together, the commonplace is transformed into the remarkable and where the stuff of history is highly personalized.

7:30pm California's Gold - Blue Angels

They're one of the most famous air squadrons in the world -- serving as positive role models and goodwill ambassadors not only for our Navy, but for our country. We're talking about the Blue Angels who, since first formed in 1946, have been demonstrating their flying skills and maneuvers to literally millions of spectators each year. And for over 30 years the Blue Angels have been a part of "California's Gold." Since 1967 the squadron has spent the winter at Naval Air Facility, El Centro, training pilots and new crew members. The good weather and open spaces make this a perfect place to practice and, over the years, squadron members have become a welcome part of the community in Imperial County during their three months of intensive preparation for the 70 air shows they fly each season. On this particular adventure host Huell Howser accepts an invitation to spend a couple of days with the Blue Angels and ends up not only watching them train, but actually gets to go up with them in an F/A18 Hornet for the ride of a lifetime. Huell also meets former Blue Angel pilots who talk about the "good old days," and visits with local citizens who talk about the pride the community of El Centro feels in having the squadron there each winter. All in all, it's a fast-paced, high-powered, high altitude adventure in search of "California's Gold."

8:00pm Nature - Outback Pelicans

The Australian outback is the driest place on the driest inhabited continent on the planet. It is a place you might expect to see kangaroos but certainly not waterbirds. Yet once every 10 years, rains flood into dried-up river beds and head inland to create the largest lake in Australia, and 100,000 pelicans -- a third of all the pelicans in Australia -- arrive for the event. Leaving their homes on coasts and harbors, they come to feed on fish washed in on the floods and on billions of brine shrimp and other crustaceans which hatch and grow to adulthood in a few days in water twice as salty as the Dead Sea. The pelicans have come home to court and raise as many families as possible before the water and the food disappear once more. (Next Air 06/05/14 01:00am)

Repeat of 06/01/14 01:00am

D-Day's Sunken Secrets

On June 6, 1944, the Allies launched the biggest armada in history to invade the Normandy beaches and liberate Europe from the Nazis. In less than 24 hours, more than 5,000 ships crossed the English Channel, along with thousands of tanks and landing craft and nearly 200,000 men. Throughout the operation hundreds of ships sank running the gauntlet of mines and bunkers, creating one of the world's largest underwater archaeological sites. Now, NOVA has exclusive access to a unique collaboration between military historians, archaeologists, and specialist divers to carry out the most extensive survey ever done of the seabed bordering the legendary beachheads. Dive teams, submersibles, and underwater robots discover and identify key examples of the Allied craft that fell victim to German shellfire, mines and torpedoes. The team uses the latest 3D mapping tools to plot the relics on the sea floor. Highlighting the ingenious technology that helped the Allies overcome the German defenses, "D-Day's Sunken Secrets" unfolds a vivid blow-by-blow account of the tumultuous events of D-Day and reveals how the Allies' intricate planning and advanced technology was vital to assure the success of the most ambitious and risky military operation ever launched. 9:00pm Music Makes A City

This film tells the inspiring story of an American city and its orchestra. In the late 1940s, Charles Farnsley, a visionary mayor in Louisville, Kentucky, embarked on an unusual scheme to save the struggling civic orchestra. His ambitious plan to commission and record new music from composers all over the world succeeded beyond all expectations -- sparking a torrent of original offerings from both famous and emerging composers of the time. The commissioning project propelled the Louisville Orchestra to Carnegie Hall and international acclaim, and made a lasting contribution to musical history. And just as Farnsley had predicted, as the orchestra's reputation grew, so did the cultural and economic life of Louisville. Narrated by Will Oldham, this story of the little orchestra on the Ohio River features interviews with composers Lukas Foss, Gunther Schuller, Elliott Carter, Chou-Wen chung and William Schuman, and a soundtrack of selected commissions recorded by the Louisville Orchestra. 7:00pm Road Trip - Uc Davis

In our first Road Trip ever shot exclusively on a UC campus, Huell spends the day at UC Davis. All of the stops we make are open to the public as well as the students. Huell learns all about the famous bicycle culture of Davis at the Bike Barn, gets up close and personal with some bugs at the Bohart Museum of Entomology and visits the beautiful UC Davis Arboretum. We enjoy a meal at the Segundo Dining Commons and a cup of coffee at the Coffeehouse, which is believed to be the largest student-run restaurant in the nation. Next it's off to the Department of Animal Science Horse Barn which has been around since 1910. We'll visit Native American studies department C.N. Gorman Museum and the California Raptor Center. We check out the UC Davis Meat Lab which is a federally inspected meat processing plant and retail butcher shop. Huell gets around on the Student-run Unitrans which provides public transportation service to the entire city with over 40 buses on 15 routes, carrying over 3 million passengers a year.

8:00pm Sarah Brightman: Dreamchaser In Concert

After making history on both stage and screen, pioneering the classical crossover genre, selling over 30 million albums worldwide, and becoming the only artist to perform the theme song at two Olympics, it's hard to imagine Sarah Brightman has a dream left to realize. Yet with her new album 'Dreamchaser,' Sarah is embarking on what she calls "the greatest adventure I can imagine." Inspired by the wonderment and beauty of space, Dreamchaser the album, is inspired by Brightman's life-long dream to travel into space. As announced last year in Moscow, Brightman is anticipated to be the first musician to travel to the International Space Station, turning her dream into reality. Dreamchaser is a collaboration with veteran producer Mike Hedges, known for his iconic work with the likes of U2, The Cure, Dido. The first single One Day Like This is a unique depiction of British band Elbow's legendary song. The album also features "Closer"; a breathtaking new arrangement of Tubular Bells. Furthering the mystique of the album, Brightman delivers many other incredible songs including an astounding rendition of Sigur Ros' Glosoli., featuring new English lyrics by Chris Difford (Squeeze). PBS will offer television viewers the opportunity to join Sarah at the start of this cosmic journey, with Sarah Brightman: Dreamchaser In Concert which will be specially filmed this coming June at Elstree Studios just outside of London. This unique, newly created television special, will be based around the futuristic, otherworldly vision behind the Dreamchaser album and World Tour, with its vast, curved screen and featuring many 3D embellishments. Her rehearsal studio will be transformed: purposefully lit and dressed into a bespoke environment for the television show recording in front of a live audience. With a breathtaking set featuring both new songs and classic favorites, the incredible lighting, elaborate costumes and powerful video imagery will fuse together to create a truly spectacular and highly original programme. A magical and provocative viewing experience awaits! (Next Air 06/09/14 09:30pm)

9:30pm Joy Bauer's Food Remedies

For many people, knowing what to eat, when to eat, and how much to eat is a puzzle they've lost all hope of ever solving. Anyone who has ever tried to make a commitment to healthy eating knows the obstacles: The dizzying number of choices in grocery stores and restaurants; the crazy, on-the-go schedules of every member of the family; the relentless hype and marketing surrounding fatty and sugary snack foods; and the powerful appetites fueled by habits, traditions, and humongous portion sizes. JOY BAUER'S FOOD REMEDIES! is a special exploring and explaining these serious health issues in a fun and friendly format - all with a step-by-step action plan. Joy Bauer has been a nutritionist for more than two decades and helped her patients learn the proper foods to eat to lose weight and gain health. And perhaps most importantly, Joy motivates people to take the first steps towards better health through what they eat - "Life is hard, food should be easy" and "Dare to make the leap" are her mottos.

**7:30pm California's Gold
World War II**

Repeat of 05/12/14 07:30pm

Learn two fascinating, yet obscure, California footnotes to World War II: a German-made crane which is the largest self-propelled floating crane berthed at Long Beach Naval Shipyard, and an incident involving a Japanese submarine that shelled the oil fields of Ellwood in Santa Barbara County in 1942. (Next Air 06/13/14 07:30pm)

8:00pm Billy Joel: A Matter of Trust - The Bridge to Russ

This historic 1987 concert event was restored in HD from the original 35mm footage and shot from over six concerts in Moscow and Leningrad. It has been re-mastered with six previously unreleased songs. The program has not been available since its original VHS release. Billy Joel: The Bridge to Russia Concert connects with the Russian people in the tumultuous era of the Cold War, and features classics ('Only the Good Die Young', 'Big Shot', 'The Longest Time'), hits from Joel's 1986 album 'The Bridge' ('A Matter of Trust', 'Big Man on Mulberry Street') and a cover of the Beatles' 'Back in the U.S.S.R.' Directed by award winner Wayne Isham. Produced and restored by Emmy-winning documentarian Jim Brown ('Pete Seeger: The Power of Song' and 'American Roots Music' (the "Program")). The Program was taped in the former Soviet Union. (Next Air 06/13/14 09:30pm)

9:30pm Sarah Brightman: Dreamchaser In Concert

Repeat of 06/08/14 08:00pm

After making history on both stage and screen, pioneering the classical crossover genre, selling over 30 million albums worldwide, and becoming the only artist to perform the theme song at two Olympics, it's hard to imagine Sarah Brightman has a dream left to realize. Yet with her new album 'Dreamchaser,' Sarah is embarking on what she calls "the greatest adventure I can imagine." Inspired by the wonderment and beauty of space, Dreamchaser the album, is inspired by Brightman's life-long dream to travel into space. As announced last year in Moscow, Brightman is anticipated to be the first musician to travel to the International Space Station, turning her dream into reality. Dreamchaser is a collaboration with veteran producer Mike Hedges, known for his iconic work with the likes of U2, The Cure, Dido. The first single One Day Like This is a unique depiction of British band Elbow's legendary song. The album also features "Closer"; a breathtaking new arrangement of Tubular Bells. Furthering the mystique of the album, Brightman delivers many other incredible songs including an astounding rendition of Sigur Ros' Glosoli., featuring new English lyrics by Chris Difford (Squeeze). PBS will offer television viewers the opportunity to join Sarah at the start of this cosmic journey, with Sarah Brightman: Dreamchaser In Concert which will be specially filmed this coming June at Elstree Studios just outside of London. This unique, newly created television special, will be based around the futuristic, otherworldly vision behind the Dreamchaser album and World Tour, with its vast, curved screen and featuring many 3D embellishments. Her rehearsal studio will be transformed: purposefully lit and dressed into a bespoke environment for the television show recording in front of a live audience. With a breathtaking set featuring both new songs and classic favorites, the incredible lighting, elaborate costumes and powerful video imagery will fuse together to create a truly spectacular and highly original programme. A magical and provocative viewing experience awaits!

In this, his first public television pledge special, Dr. Howard Murad, an international authority on health and wellness, explains how to slow down and even reverse the aging process with a new system called Inclusive Health. A Younger You is based on his experience with over 50,000 patients. Dr. Murad says "Inclusive Health promotes and protects the health of every cell in our body by flooding those cells with water to keep us healthier in every way." Dr. Murad a board-certified dermatologist, a trained pharmacist, associate clinical professor of medicine at UCLA, and best-selling author of five anti-aging books. He runs the world-renowned Murad Inclusive Medical Group in Los Angeles. He says restoring our cellular water is like drinking from a scientifically-supported fountain of youth that reconnects us with the time when we had more energy, slept better, didn't think twice about our age and were happy about how we looked. Dr. Murad says achieving all of this is easier than we might think and he says we're never too old to begin our journey to A Younger You. (Next Air 06/29/14 09:30am)

7:30pm California's Gold - China Clipper

They were huge flying boats named after the great sailing ships that in the 1800's sailed the oceans of the world. The luxurious Pan American "Clipper" planes of the 1930's took cargo, mail and passengers around the world in what was, for its time, considered a daring and pioneering feat. Pan American's Treasure Island terminal and lagoon became the home port for the Clipper's Pacific operations -- connecting the United States with the Far East by air. Starting in the mid-1930s, and lasting for only five years, residents of the Bay Area were treated to the sights and sounds of these huge boat planes taking off and heading out over the Pacific. Recently in a very special episode of "California's Gold," history repeated itself as, once again, a boat plane landed on the Bay, taxied up to a docking area near Treasure Island, took on passengers and flew out over the city. This episode is a tribute to the "China Clipper" and its California connection. The original Terminal building on Treasure Island is the stage where former Pan American pilots and crew members who actually flew the Clipper, gather once more for conversation and reminiscing. Producer/host, Huell Howser experiences his high point when he climbs aboard one of these historic boat planes with two former crew members for a short, exciting flight around the Bay area. The days of the Clipper are gone forever, replaced decades ago by long-range jets. But for a few hours on a beautiful spring afternoon, some of the glory days of the great Clipper ships, and the people who made those days happen, returned to Treasure Island. It's a look back at a glorious part of our aviation history as we take to the air in search of "California's Clipper Gold".

8:00pm 3 Steps to Incredible Health! with Joel Fuhrman, M

3 STEPS TO INCREDIBLE HEALTH! with Joel Fuhrman, MD is a sixty-minute pledge program that directly addresses the crisis of obesity and chronic disease plaguing America. Over 65% of Americans are overweight or obese - and that number is growing just like our waistlines! Dr. Joel Fuhrman's revolutionary health plan is not about will power, it is about knowledge. 3 STEPS TO INCREDIBLE HEALTH! offers a healthy, effective, and scientifically proven plan for shedding weight quickly and reclaiming the vitality and good health we all deserve.

9:30pm Brainchange with David Perlmutter, Md

BrainChange reveals the devastating truth about the effects of wheat, sugar, and carbohydrates on the human brain, with a 30-day plan to achieve optimum health. Renowned neurologist David Perlmutter, MD, blows the lid off a topic that's been buried in medical literature for far too long: carbs are destroying your brain. And not just unhealthy carbs, but even healthy ones like whole grains can cause dementia, ADHD, anxiety, chronic headaches, depression, and much more. His New York Times #1 best-selling book, Grain Brain, is the first book of its kind to explore the insidious role our highly touted low-fat, high- carb diets play in a host of neurological conditions. The vast majority of us don't realize that our seemingly "healthy" daily habits are silently aggravating our nervous systems and setting us up for serious brain ailments. BrainChange shows that the fate of your brain is not in your genes. It's in the food you eat. Dr. Perlmutter, a leading international authority on nutritional medicine, has a disturbing yet empowering message: our brains are highly sensitive to certain proteins and sugars that are ubiquitous today-in our hand creams and organic ice creams, cocktails and coffees, multi-grain breads, whole fruits, and even brand name pharmaceuticals. In BrainChange, he shows us how to prevent, treat, and reverse a wide array of brain-related disorders by eliminating specific foods from our diets and making smarter lifestyle choices. Dr. Perlmutter is the only doctor in the country who is both a board-certified neurologist and a Fellow of the American College of Nutrition, making him uniquely suited to write this book and make this public television program. An in-demand expert for nationally syndicated radio and television programs, he has appeared on 20/20, CNN, Dr. Oz, Fox News, Good Morning America, The Today Show, and Oprah, among many outlets. Dr. Perlmutter also runs his own private practice, The Perlmutter Health Center, in Naples, Florida. (Next Air 06/13/14 08:00pm)

8:00pm Suze Orman's Financial Solutions for You

Repeat of 06/08/14 10:00am

We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others. (Next Air 06/15/14 04:00am)

"Imagine finding out that someone, miraculously, had videotaped performances by Beethoven, Brahms, and Schubert, with the tapes now available for anyone who wished to see them. Or learning that someone had aimed a camera and microphone at Scott Joplin and Jelly Roll Morton, the tapes sure to offer insights on early ragtime and jazz. In a way, that's what just happened in gospel music. For more than two decades, the long - defunct Jubilee Showcase TV program featured and therefore preserved on tape virtually everyone who mattered in gospel. " -- Howard Reich , The Chicago Tribune , January 26, 1992.

11:30pm Sky Island

In Northern New Mexico a range of mountains rises up from the high desert, a wild, rugged land of the Faraway Nearby. The volcanic Jemez Mountains are isolated from all other ranges -- an island in the sky, surrounded by a desert sea. In "Sky Island," filmmaker John Grabowska profiles this enchanting landscape and our place within it, with climate change effects already dramatically altering the desert and alpine ecosystems. The film features narration by Pulitzer Prize winner N. Scott Momaday and actress Meryl Streep. (Next Air 06/13/14 05:30am)

9:00pm Rock, Pop and Doo Wop (My Music)

Rock and pop legends Ronnie Spector (of The Ronettes) and Jon "Bowzer" Bauman (formerly of Sha Na Na) team up to host a celebration of the best-loved songs from the late 1950s and early 1960s in an all-new MY MUSIC concert event. Recorded in May 2010, this special offers emotion-packed performances from iconic voices singing songs that have remained popular for over forty years. Highlights: For the first time in four decades, pop-rock royalty Ronnie Spector is able to sing on TV the biggest hits from her days as the star of The Ronettes: "Be My Baby" and "Baby I Love You." History is also made when La La Brooks performs "Da Doo Ron Ron (When He Walked Me Home)" and "Then He Kissed Me," two girl group classics from The Crystals and songs on which Brooks sang lead vocals on the original recordings. The beloved Jay Black, formerly of Jay & The Americans, renders his show-stopping smash "Cara Mia" and Len Barry makes a rare appearance to offer his #1 hit "1-2-3." The Orlons hit the stage with "The Wah-Watusi" in tribute to the Philly teen dance music of American Bandstand era in the early 1960s. "This show is also unique in that we've been able to acquire lost footage from archives around the world that hasn't been seen since originally aired," says My Music creator and executive producer TJ Lubinsky. "Included are anthems like 'Get A Job' by the Silhouettes and 'Book Of Love' by The Monotones." Also featured is an original performance by Johnny Maestro & The Crests (before Maestro formed The Brooklyn Bridge). "Johnny was an all-time legend of vocal group harmony," said Lubinsky. "After his recent passing, seeing him in his prime is a highly poignant moment." (Next Air 06/15/14 02:00am)

10:00pm T'ai Chi, Health and Happiness with David-Dorian R

T'ai Chi - Health & Happiness is a show that introduces viewers to the practical benefits of the Chinese martial art of T'ai Chi. Respected T'ai Chi expert David-Dorian Ross combines a series of demonstrations that take the viewer through the basics of T'ai Chi with an engaging and detailed description of the physical, mental, and spiritual benefits of this ancient form of exercise and "moving meditation." The show is hosted by the American T'ai Chi champion and advocate David-Dorian Ross - World silver and dual bronze medalist, and 8-time US national champion. He has been called, "a gifted guru," and "the man who brought T'ai Chi mainstream" in the U.S. His television shows, books, seminars and instructional DVD's (including the #1 selling DVD T'ai Chi Beginners' Practice) have already introduced thousands to his down-to-earth, informative and highly personal style of teaching T'ai Chi. Ross is famous for taking this ancient Asian style of Kung-Fu and translating it for modern Western audiences in a way that makes it accessible, fun - and often funny. As David-Dorian explains to the studio and home audience, T'ai Chi is a practice that can transform their lives. It engages the physical body, develops mental focus, and honors ancient wisdom. Its beautiful dance "forms" are practiced by more than a billion people throughout Asia and around the world. T'ai Chi Ch'uan is called "the ultimate exercise" for body, mind and spirit. The health benefits of T'ai Chi are surprising in number and scope, and David-Dorian reviews these in the program. And, as he points out there is an additional and often overlooked benefit to this practice. T'ai Chi is a living philosophy - a practical blueprint for living a life that brings happiness, fulfillment - and that elusive spiritual goal, inner peace. The fundamental lesson behind all of T'ai Chi's benefits can be summed up in one word: balance. In fact, the philosophy of T'ai Chi contends that all of its amazing health benefits come from bringing the person's body, mind and spirit back into balance. The same goes for every other aspect of life - relationships, family, career, self-esteem and creativity. When life is in balance, everything works better. When you begin to lose your balance, the things we want and need in life begin to break down and slip away. As David-Dorian says in the program: "When your life is in balance, everything works. And when your life is out of balance, everything begins to break down. It's just that simple. And that's the essence of tai chi, it's about bringing balance into your life."

7:30pm California's Gold - Shasta Dam

When most people think of Shasta Lake, they imagine themselves on a houseboat enjoying California's largest manmade reservoir. With 365 miles of shoreline it is a boaters paradise. What most people don't think about is the massive structure that is responsible for holding back the water that creates Shasta Lake. We're talking about Shasta Dam which, is a perfect example of "California's Gold". Construction of the dam started in 1938 and ended in 1945. It's 602 feet high, 883 feet thick at the bottom, 30 feet thick at the top, and 3,460 feet long. The face of the dam is as big as six football fields and the spillway is the largest manmade waterfall in the world - three times the height of Niagara Falls. There are 18 outlets on the face of the dam, each big enough to drive a pickup through. Shasta Dam has the second largest mass of any dam in the United States. In this adventure, Huell and Luis get a behind the scenes look at this engineering marvel. Miles of tunnels and millions of gallons of water make for an exciting day, but there is another aspect to the Shasta Dam - the human element. It is the people who built the dam, the people that poured concrete 24 hours a day for 5 1/2 years and the countless other jobs that make this structure such a gem. Huell meets several of the original dam workers and listens to their stories about the glory days of Shasta Dam.

8:00pm Omni Health Revolution with Tana Amen, Rn & Dr. Da

The Omni Health Revolution is a new show by psychiatrist Daniel Amen and his wife, neurosurgical intensive care nurse Tana Amen. The program is designed to help viewers take control of their physical and mental health using the science of nutrigenomics - a big word, but it's very simple. Nutrigenomics tells us that the foods you eat talk directly to your genes. You have the choice to eat in a way that turns on genes that keep you healthy or make you sick. Most people think of their genes like an evil monarchy that condemned them to be sick. Daniel and Tana Amen turn that notion on its head to give viewers much more control over the health of their bodies and minds. The Omni Health Revolution is a bipartisan plan that bridges the gap between strict vegetarian diets and extreme high protein diets. That diet program is based on 70% plant based foods and 30% high quality protein. It is the perfect balance for optimal health and performance. Participants find it gives them better energy, memory, and mood, plus a slimmer waistline. As an ICU nurse, Tana knows a lot of uncomfortable ways to keep people alive for a long time. But she wants a high quality life and has adopted the concept of health span instead of lifespan. Health span is how long you live in a healthy state and are able to enjoy looking and feeling your best, living with passion, and having the greatest resistance to disease. And the thing is, most of us don't have to eat an extreme diet to enjoy a long, healthy life. (Next Air 06/22/14 01:00pm)

10:00pm Pov - When I Walk

Jason DaSilva was 25 years old and a rising independent filmmaker when a diagnosis of multiple sclerosis changed everything -- and inspired him to make another film. "When I Walk" is a candid and brave chronicle of one young man's struggle to adapt to the harsh realities of M.S., while holding on to his personal and creative life. With his body growing weaker, DaSilva's spirits, and his film, get a boost from his mother's tough love and the support of Alice Cook, who becomes his wife and filmmaking partner. The result is a life-affirming documentary filled with unexpected moments of joy and humor. (Next Air 06/25/14 04:00am)

7:30pm California's Gold - Wooden Boots

They come in all shapes and sizes and many date back to the early part of this century. All have been lovingly restored by their owners and are meticulously maintained. In short, they're some of the most beautiful wooden boats ever made. Host Huell Howser gets a close look at these boats as he attends the 24th annual Concours d' Elegance which is dedicated to the preservation and celebration of the wooden boats that have graced Lake Tahoe since the 1920s. He not only talks with the owners about the rich history of their individual boats, but goes out on the clear waters of Lake Tahoe for a ride on some of the fastest boats. It's all part of Wooden Boat Week sponsored by the Tahoe Yacht Club, and after you see these spectacular boats for yourself, you'll agree they are very much a part of "California's Gold."

8:00pm March

Witness the compelling and dramatic story of the 1963 March on Washington, where Dr. Martin Luther King gave his stirring "I Have a Dream" speech. This watershed event in the Civil Rights Movement helped change the face of America. The film reveals the dramatic story behind the event through the remembrances of key players such as Jack O'Dell, Clarence B. Jones, Julian Bond and Andrew Young. Supporters and other testimonials of the March include Harry Belafonte, Diahann Carroll, Roger Mudd, Peter Yarrow and Oprah Winfrey, in addition to historians, journalists, authors and ordinary citizens who joined some 250,000 Americans who thronged to the capital on that momentous day to peacefully demand an end to two centuries of discrimination and injustice. Other notable figures featured in the film include Clayborn Carson, Edith Lee Payne, Joyce Ladner and Rachell Horowitz. Denzel Washington narrates. (Next Air 06/25/14 01:00am)

9:00pm Freedom Summer: American Experience

During the summer of 1964, the nation's eyes were riveted on Mississippi. Over 10 memorable weeks known as Freedom Summer, more than 700 student volunteers joined with organizers and local African Americans in an historic effort to shatter the foundations of white supremacy in the nation's most segregated state. Working together, they canvassed for voter registration, created Freedom Schools, and established the Mississippi Freedom Democratic Party, with the goal of challenging the segregationist state Democratic Party at the national convention in Atlantic City. The campaign was marked by sustained and deadly violence, including the notorious murders of three civil rights workers, countless beatings, the burning of 35 churches, and the bombing of 70 homes and Freedom Houses.

7:30pm California's Gold - Hidden Alcatraz

Most of us have seen one of the countless films based on Alcatraz, from the Birdman to Clint Eastwood and his Escape From Alcatraz. Over a million people every year take the ferry through the thick San Francisco fog to walk the cell blocks that housed the likes of Machine Gun Kelley and Al Capone. As usual Huell wasn't satisfied with the regular tour and went in search of the "Hidden Alcatraz". It got its name from the Spanish word Alcatrazes, or Bird Island and didn't see human inhabitants until the US Military took it over in the mid 1800s. During the Civil War it was used as a prison for Southern privateers. After the more modern prison was built in the 1930s, the old Civil War prison was covered over and virtually forgotten. Join Huell and Luis as they go under Alcatraz and discover the labyrinth of tunnels and caves that honeycomb "The Rock". The remnants of our state's rich history are finally uncovered in this very special tour. There is much more to Alcatraz than meets the eye.

Frogs from around the world are used to demonstrate the wide variety of frog anatomy, appearance and behavior. Their amazing adaptations and survival techniques have made them the most successful of all amphibians.

9:00pm Nova - Deadliest Earthquakes

In 2010, epic earthquakes all over the planet delivered one of the worst annual death tolls ever recorded. The deadliest strike was in Haiti, where a quake just southwest of the capital, Port-au-Prince, killed more than 200,000, reducing homes, hospitals, schools, and the presidential palace to rubble. In exclusive coverage, a NOVA camera crew follows a team of US geologists as they first enter Haiti in the immediate aftermath of the tragedy. It is a race against time as they hunt for crucial evidence that will help them determine exactly what happened deep underground and what the risks are of a new killer quake. Barely a month after the Haiti quake, Chile was struck by a quake 100 times more powerful, unleashing a tsunami that put the entire Pacific coast on high alert. In a coastal town devastated by the rushing wave, NOVA follows a team of geologists as they battle aftershocks to measure the displacement caused by the earthquake. Could their work, and the work of geologists at earthquake hot-spots around the U.S., one day lead to a breakthrough in predicting quakes before they happen? NOVA investigates new leads in its investigation of a deadly scientific conundrum.

10:00pm Surviving The Tsunami: A Nova Special Presentation

The earthquake that hit the northern coast of Japan on March 11, 2011 was recorded at magnitude 9.0 the worst ever to strike Japan. It generated an unprecedented tsunami, obliterating coastal villages and towns in a matter of minutes. Amazingly, amateur and professional photographers captured it all on video, including remarkable tales of human survival, as ordinary citizens became heroes in a drama they never could have imagined. As the waves rush in, a daughter struggles to help her elderly mother ascend their rooftop to safety; a man climbs onto an overpass just as the wave overtakes his car. These never-before-seen stories are captured in video and retold after-the-fact by the survivors who reveal what they were thinking as they made their life-saving decisions. Their stories provide lessons in survival and how we should all act in the face of life threatening disasters.

11:30pm Sky Island

Repeat of 06/25/14 05:30am

In Northern New Mexico a range of mountains rises up from the high desert, a wild, rugged land of the Faraway Nearby. The volcanic Jemez Mountains are isolated from all other ranges -- an island in the sky, surrounded by a desert sea. In "Sky Island," filmmaker John Grabowska profiles this enchanting landscape and our place within it, with climate change effects already dramatically altering the desert and alpine ecosystems. The film features narration by Pulitzer Prize winner N. Scott Momaday and actress Meryl Streep. (Next Air 06/28/14 04:30am)

9:00pm Masterpiece Mystery! - Endeavour, Season 2: Trove

Shaun Evans ("The Take," "The Virgin Queen") returns for a second season as the young rookie, DC Endeavour Morse, before he acquired his signature red Jaguar but with his deductive powers already running in high gear. Four months after DC Endeavour Morse's brush with death, he returns to duty with Oxford City Police and is reunited with DI Fred Thursday. Morse's first case involves a John Doe who plummets to his death in what appears to be a routine suicide. When Morse discovers the man's mysterious final message, he begins to consider seemingly unrelated cases, causing Thursday to worry that Morse's wounds may have been more in mind than body.

10:30pm Vicious

Freddie and Stuart host a wake. Joined by their small circle of elderly friends, the couple manages to create a splendidly awkward evening of meager food and liberal insults. Joining them is Freddie and Stuart's young neighbor Ash, whose sexuality is a point of interest. Ash spends the evening trying to be a good guest while fending off the advances of Freddie and Stuart's predatory best friend, Violet.

11:00pm Woodsongs - Tommy Emmanuel

Tommy Emmanuel is one of Australia's most respected musicians. This two-time Grammy nominee and legendary guitarist has dazzled audiences worldwide for five decades. Tommy's unique "finger style" is akin to playing guitar the way a pianist plays piano, using all ten fingers. Guitar legend Chet Atkins became one of Emmanuel's biggest fans. Plus, Tommy performs on the broadcast with Parker Hastings, a 13-year-old guitarist from Richmond, KY, who idolizes Tommy.

7:30pm California's Gold - Weedpatch

Many "Okies" fled the Dust Bowl in their jalopies with signs reading "California or Bust." Out of options, they often ended up at the " Weedpatch camp," a federal labor and living camp for migrant workers in Kern County. Huell visits this historic camp, later immortalized in John Steinbeck's "Grapes of Wrath," and talks with both the "Okies" who grew up there and the Latinos who now call it home.

8:00pm Antiques Roadshow - Vintage Columbus

Back in 1999, ANTIQUES ROADSHOW dropped in on Columbus, Ohio. Since then, some of the originally appraised items have soared in value, but others have sunk. Highlights include a trio of Albert Cheuret art deco clocks; a Marx "Roy Rogers" play set; and a historical collection, once owned by our nation's first postmaster general, including a Thomas Jefferson letter previously valued at \$100,000, now valued for \$ 300,000-\$350,000.

9:00pm Antiques Roadshow - Vintage Pittsburgh

In 1997, The Haters, one of the earliest and best known conceptual art and "noise" bands, performed their latest release, "Drunk on Decay, " live in Pittsburgh. ANTIQUES ROADSHOW's event in the Steel City was a sober affair featuring such bright new discoveries as a gold, silver and ruby bracelet whose value has shined up from \$6,000 to a current \$1 0,000 to \$12,000, while the value of a handsome Victorian sideboard has crumbled from \$12,000 to \$15,000 to \$5,000 to \$8,000.

10:00pm Pov - American Revolutionary: The Evolution of Grace Lee

Grace Lee Boggs, 98, is a Chinese American philosopher, writer and activist in Detroit with a thick FBI file and a surprising vision of what an American revolution can be. Rooted in 75 years of the labor, civil rights and Black Power movements, she challenges a new generation to throw off old assumptions, think creatively and redefine revolution for our times.
