9:30PM Path to Wealth with May Mccarthy

Entrepreneur, philanthropist, lecturer and angel investor, May McCarthy knew something intuitively at an early age. And that 'something' enabled her to become a multi-millionaire builder of companies that generated millions in revenue, and in 2015 led to the publication of her book, "The Path To Wealth", a word-of-mouth best-seller. Debuting to rave reviews, "The Path To Wealth" was written, in May's words, to help readers receive 'the good things' that they want in life. "This is what I want for you, and it's the reason I wrote this book". The Path To Wealth is not a "get rich quick" story. In clear and concise language, May McCarthy explains the Seven Steps that, if learned and followed over the course of just 30 days, and then adhered to, can change lives. As May says, "(in business) just setting goals is not enough; holding regular planning sessions and reviewing goals is vital for success. The same is true for individual success. Attaining your goals requires identifying clear, specific, and tangible goals, and consistently focusing our attention and intention on them." May McCarthy has spent 32 years uncovering the mystery of how to rely on intuition to experience great levels of success, financial abundance, and happiness. She is a successful philanthropist, speaker, and author who has grown six profitable companies to as large as 250 employees and over \$100 million in annual revenues. May serves on business, philanthropic, arts and university boards. As an advisor, she serves graduate students at Seattle University, as well as entrepreneurs through the WIN (Washington Innovation Network) Entrepreneur Mentoring Program. She has become successful by implementing her seven principles into her ventures, and it is her passion to pass her knowledge on to others with her first program for Public Television. 11:00PM Woodsongs - Celebration of Merle Travis with Thom Bresh, Eddie Pennington,

Katelyn Prieboy and Parker MERLE TRAVIS is a Kentucky guitar hero and an American music icon. Born in Rosewood, Kentucky, his lyrics often discussed the life and exploitation of coal miners. Among his many well-known songs are "Sixteen Tons," "Re-Enlistment Blues," "I am a Pilgrim" and "Dark as a Dungeon". However, it is his master guitar playing and his interpretations of the rich musical traditions of his native Muhlenberg County, Kentucky for which he is best known today. "Travis picking", a syncopated style of finger-picking, is named after him. He was inducted into the Nashville Songwriters Hall of Fame in 1970 and elected to the Country Music Hall of Fame in 1977. Performing on this broadcast: THOM BRESH is the son of Merle Travis and a world-class guitar master in his own right. Bresh did not begin his music career until his adult years. From age 3 to age 17, he worked as an actor and one of the youngest stuntman in TV and movies, where such programs as 'The Lone Ranger' and the Billy the Kidd trilogy were filmed. Ever since he was old enough to hold a guitar pick, he's followed the unique fingerpicking style his father made famous, bringing it to new audiences. EDDIE PENNINGTON is one of the true guitar legends from Kentucky in the same tradition popularized by Merle Travis and Chet Atkins. PARKER HASTINGS is only 15 years old and already is one of Kentucky's premier thumpicking champions in the tradition of Merle Travis, Eddie Pennington and Tommy Emmanuel. KATELYN PRIEBOY is 19 and from Tampa, Florida. She was recently crowned grand champion at Legends Thumpicking Competition in Muhlenberg County, Ky., in late September.

8:00PM American Epic Sessions

Jack White and T Bone Burnett lead an epic recording session using the only working 1920s recording device in existence in this tribute to the artists celebrated in the American Epic documentary series. The recording device is timed by a weight-driven system of clockwork gears. Stripped of the comforts and security of modern technology, the artists have three minutes and one chance to get their music etched into the surface of a revolving wax disc before the weight hits the floor. Conceived as a sonic experiment-an attempt to recreate the conditions of the early record company field teams-the result is a series of career-topping performances by leading artists pushed to meet the standards of their heroes. Going back to basics and capturing the energy of a unique live performance, these recordings are heard exactly as they were made. Musicians featured: Alabama Shakes, The Americans, Ana Gabriel, Ashley Monroe, The Avett Brothers, Beck, Bettye LaVette, Bobby Ingano, Elton John, Frank Fairfield, Jerron "Blind Boy" Paxton, Los Lobos, Lost Bayou Ramblers, Nas, Pokey LaFarge, Raphael Saadiq, Rhiannon Giddens, Steve Martin and Edie Brickell, Taj Mahal, Jack White, and Willie Nelson and Merle Haggard.

9:30PM 28 Day Metabolism Makeover with Amy Myers, Md

Repeat of 05/28/2017
11:00AM

It's remarkable how many symptoms-large, small, and in between-are connected to your thyroid. In fact, just about every aspect of your metabolism depends on thyroid function; if your thyroid isn't working up to par, you won't be either. Healing and supporting your thyroid is one of the most important ways you can connect to your body-and one of the best ways to achieve optimal health. If you have the sinking feeling that your regular doctor is missing something, because he or she keeps insisting that you're fine, whereas you know that "fine" is the last thing you are, this program has answers for you. That's right. Even if your doctor says you don't have a thyroid problem, you very well might. It's all too sadly possible that the tests you're getting aren't accurate, your doctor is misinterpreting the results, you're being under-medicated, you're getting the wrong type of medication-or you're suffering from some combination of all those factors. Meanwhile, you're feeling lousy: exhausted, old before your time, and-since your doctor won't believe you-possibly crazy. So breathe a big sigh of relief and get ready to feel better. Because in this program, you're going to find out that you were right all along. There is something wrong with you. You do have a thyroid disorder, it can be treated, and as soon as it is, you're going to feel like a whole new person. Nourishing your thyroid can help clear away the brain fog, soothe anxiety and ease the depression, heal those achy joints and raging hormones, and help you get your sex life back. It can be the key to dropping those extra pounds and never regaining them. And yes, you'll even get your hair growing all thick and healthy-better than you've ever seen it-with clear glowing skin and boatloads of energy to boot. That's what's possible-total vibrant health and nothing less. That's what you can look forward to when your thyroid is working optimally and you're following the diet and lifestyle that supports fabulous health. Thousands of Dr. Amy Myers' patients have achieved it on her plan, and now she's offering her plan to public television viewers. Dr. Myers once practiced as an Emergency Room physician, but soon discovered conventional medicine is a one size fits all model. Her belief is that health shouldn't be viewed as a cookie cutter solution; it's more complex than that. She practices functional medicine, or personalized medicine. No two people are alike. Each of us is unique in our genetic makeup and physiology. What ultimately causes illness in one person is not the same for another, and treatment for each will therefore be different. She knows this from personal experience. Dr. Myers was once diagnosed with autoimmune thyroid dysfunction, and has the unique perspective of a patient as well as a physician. She knows that every detail of your health is interconnected, everything is a clue to your present state of health. In this program she'll help you solve your issues based on the root cause - not simply treat the symptoms.

Will this lack of food affect their mating and ability to raise a family in the Spring? Cameraman Jeff Hogan is following them to find out. And top wolf biologist Doug Smith explains why he's concerned about the number one predator. With a winter that's had less snow than usual it's favored the prey and the wolves are starving hungry. 9:00PM Great Yellowstone Thaw

Our cameras continue to follow the wildlife dramas in Yellowstone, and Spring brings many new challenges. While the brutal cold temperatures and deep snow of winter have gone, the weather is still erratic and there's the impending danger of the Thaw. When temperatures are high enough to melt the snowpack, millions of tonnes of water will cascade down the mountain, bulldozing everything in its path. Wildlife cameraman Jeff Hogan discovers a nest of Great Gray owls. There are three chicks, but one is a runt, significantly smaller than its siblings and at risk of starvation. And when the worst storms for years hit the Beartooth Mountains, Jeff wonders whether it can hang on. Down on the Snake River the family of beavers is busy making the most of the Spring vegetation. Infra red cameras give Jeff and host Kirk Johnson a secret view of life inside the lodge, as the beavers squabble over food. Kirk also dons a dry suit to head underwater to admire the engineering skills of these rodents. Massive boulders and branches are there to strengthen their dams, but will they be enough to withstand the Thaw. When the torrent of water begins to hit, Kirk joins a hydrologist to help measure the water flow in the rivers and work out how this year's weather has affected the Thaw. And bear expert Casey Anderson follows a mother grizzly and her cubs - and explains that the biggest dangers come not from other predators, but surprisingly from their own kind.
