8:00pm This Old House Hour

Arlington Italianate Project finale: Landscape designer Cricket Beauregard completes the exterior with a pair of classically inspired urns. Tom details how he modified the master bath to accommodate a steam shower. Malcolm and Richard check out the newly finished basement spaces. Heather shows Norm the finished bedrooms, baths and laundry spaces. Designer Christine Tuttle shows Kevin the decor choices that give the home a period inspired but unfussy feel. The whole group gathers in the new eat-in kitchen to celebrate the renaissance of this Italianate home. In the second half of the hour, on ASK THIS OLD HOUSE, it's all about kitchen renovations: Tom and Kevin help a homeowner install new cabinets; Richard shows many options for countertops; and Kevin visits the Cleveland home and restaurant kitchens of Chef Michael Symon for ideas and inspiration. Repeat of 04/28/14 02:00am

Millie's import/export sideline leads to her abduction by a crime ring involved in trading perfume, cigarettes and stockings - and in human trafficking. After her release, Millie is determined to help those sold into prostitution. Millie, Jean, Lucy and Alice decide to tip off Customs and Excise to intercept a contraband shipment and catch the traffickers. Millie is abducted and taken to a seedy hotel, where she meets a young Eastern European girl who indicates that the crime ring is involved in sex trafficking. Jasper, Millie's black market partner who was caught skimming money, has also been kidnapped and badly beaten. Millie persuades Marta, the crime family matriarch, to let her take over Jasper's operation. After her release, Millie convinces Alice, Jean and Lucy that they should help the trafficked girls. The four women make a horrifying discovery.

7:30pm California's Gold - Monarchs

Have you ever wondered what 100,000 Monarch Butterflies look like? Well here's your chance. Huell travels to Pismo State Beach to visit the largest overwintering site for Monarch butterflies in the U.S. More people visit this site than any another butterfly site in the world. Last year they had 50,000 visitors! Every year hundreds of thousands of Monarchs fly as much as two thousand miles to reach safe overwintering sites along California's central coast. They can fly up to one hundred miles a day at an altitude of up to ten thousand feet. What's amazing is that none of the butterflies that make this amazing journey have ever been here before. The butterflies have nothing but instinct to guide them. Huell gets a special tour of this wonderful site from a Park Ranger, docents and a class from Cal Poly who studies the Monarchs. It's a feast for the eyes.

8:00pm Antiques Roadshow - Anaheim, Hour Three

ANTIQUES ROADSHOW is in Anaheim, California, where host Mark L. Walberg and appraiser Rosie Sayyah head to Joseff Jewelry to discuss Hollywood costume jewelry. Highlights include an 18th-century Chinese cinnabar lacquer box that was originally created as gift wrapping and is appraised for \$40,000 to \$60,000; a collection of wanted posters found in southern California hotel ledgers, ca. 1900, featuring a Butch Cassidy wanted circular; and a shadow box attributed to Joseph Cornell that was found in the trash by the owner's father and could fluctuate in value from \$100 to \$150,000, depending on authentication.

9:00pm Antiques Roadshow - Minneapolis, Mn - Hour Three

The Wabasha Street Caves provide the perfect noir background for host Mark L. Walberg and appraiser Simeon Lipman to discuss the history and collecting of flashlights. Highlights include an 1863 Ulysses S. Grant letter; a circa 1950 Charles Shulz Li'l Folks original cartoon; and two paintings - one by Victor Higgins, the other by Spencer - purchased together for \$5, but valued at \$75,100-\$75,200.

10:00pm Independent Lens - A Fragile Trust: Plagiarism, Power, and Jayson Bla

Samantha Grant's film tells the shocking story of Jayson Blair, a promising young African-American reporter for The New York Times, caught plagiarizing the work of other reporters and supplementing his own reporting with fabricated details. The ensuing media frenzy left a major blemish on the long history of the Times. The fact that Blair is African American was emphasized repeatedly as accounts of the "Blair Affair" served up sordid details in a tale of deception, drug abuse, racism, mental illness, hierarchy, white guilt and power struggles. Accusations of favoritism, lowered standards for minorities and racism in the newsroom were hotly debated by pundits, while minority journalists said they felt as if their work was suddenly under the microscope because of Blair's flagrant lies. This film examines a world wonder so elusive, most people have decided it must be mythical. Centuries of digging have turned up nothing. But they were digging in the wrong place. Now, this film proves the spectacular Hanging Gardens of Babylon did exist, shows us where they were, what they looked like and how they were constructed.

10:00pm Frontline - Hunting The Nightmare Bacteria

"Nightmare bacteria." That's how the CDC describes a frightening new threat spreading quickly in hospitals, communities, and across the globe. FRONTLINE reporter David Hoffman investigates the alarming rise of untreatable infections: from a young girl thrust onto life support in an Arizona hospital, to a young American infected in India who comes home to Seattle, and an uncontrollable outbreak at the nation's most prestigious hospital, where 18 patients were mysteriously infected and six died, despite frantic efforts to contain the killer bacteria. Fueled by decades of antibiotic overuse, the crisis has deepened as major drug companies, squeezed by Wall Street expectations, have abandoned the development of new antibiotics. Without swift action, the miracle age of antibiotics could be coming to an end. (Next Air 05/07/14 03:00am)

Join Huell as he is airlifted to the tiny reef which holds this now-abandoned century old treasure. This one-of-a-kind structure reaches 142 feet in the air and is a "wave washed" lighthouse--meaning that it takes the brunt of the sea from all sides. This adventure is a rare treat.

8:00pm Nature - Shark Mountain

Underwater filmmakers Howard and Michele Hall have spent 25 years diving and documenting the most remote and beautiful underwater locations, always learning something new about the fantastic creatures that live there. Yet even these remote places and creatures are at risk in today's world, and being able to share their experiences with the rest of us is increasingly important to the Halls, and to us. They take us along on the dive of a lifetime, to a tiny outpost 300 miles off the coast of Central American - Shark Mountain.

9:00pm Nova - Why Sharks Attack

In recent years, an unusual spate of deadly shark attacks has gripped Australia, resulting in five deaths in 10 months. At the same time, great white sharks have begun appearing in growing numbers off the beaches of Cape Cod, Massachusetts, not far from the waters where Steven Spielberg filmed the ultimate shark fright film, Jaws. What's behind the mysterious arrival of this apex predator in an area where they've rarely been seen for hundreds of years? Are deadly encounters with tourists inevitable? To separate fact from fear, NOVA teams up with leading shark experts in Australia and the United States to discover the science behind the great white's hunting instincts. Do sharks ever target humans or is each attack a tragic case of mistaken identity? Can a deeper understanding of shark senses lead scientists to design effective deterrents and help prevent future attacks? With shark populations around the world plummeting, scientists race to unlock the secrets of these powerful creatures of the deep in their quest to save people -- and sharks.

10:00pm Secrets of Chatsworth

Over five centuries, Chatsworth Estate has been passed down through 16 generations of the Cavendish family and is presently the home of the current 12th Duke of Devonshire and his family. We discover the stories throughout its 500 years that have shaped the history of Chatsworth into the acclaimed and distinguished house it has become today. So rich are some of the tales, they have even caught the imagination of Hollywood, The Duchess was the story of Lady Georgiana Spencer and her ill-fated marriage to the the 5th Duke, although their marriage was a great dynastic match, their personalities were entirely unsuited and they lived together with Lady Elizabeth Foster, Georgiana's close friend in a menage a trois. Chatsworth even links to American President, John F Kennedy who came to visit his sister, Kathleen Kennedy after she was tragically killed in a plane crash and buried in the grounds of Chatsworth. Kathleen was married to Billy Cavendish, son and heir to the 10th Duke of Devonshire. So how does it really feel to live and work in such an opulent house with so much colorful history? We take a look behind the doors of the house and stroll around the vast gardens and estate, talking to the Duke and Duchess to find out the real truth behind Chatsworth. (Next Air 05/12/14 02:00am)

10:00pm Independent Lens - Let The Fire Burn

On May 13, 1985, a longtime feud between the city of Philadelphia and controversial radical urban group MOVE came to a deadly climax. By order of local authorities, police dropped military-grade explosives onto a MOVE-occupied rowhouse. TV cameras captured the conflagration that quickly escalated and resulted in the tragic deaths of 11 people (including five children) and the destruction of 61 homes. It was only later discovered that authorities decided to "...let the fire burn." Using archival news coverage and interviews, first-time filmmaker Jason Osder brings to life one of the most tumultuous and largely forgotten clashes between government and citizens in modern American history.

11:30pm Ribbon of Sand

The famed Outer Banks of North Carolina are a slim and moving line of sand in the open Atlantic. Many travelers think they know these islands -- but south of Ocracoke Inlet there rises a luminous bar of sand 60 miles in extent, with no roads, no bridges, no hotels: the wild beaches of Cape Lookout, one of the few remaining natural barrier islands in the world. "Ribbon of Sand" examines this seascape and the transitory islands doomed to disappear. The film features quotes by environmental pioneer Rachel Carson as interpreted by actress Meryl Streep.

8:00pm Coming Back with Wes Moore - Coming Back

In episode one, host Wes Moore explores the questions surrounding the difficulty with the process of coming back from war. He meets Chris Phelan who was able to successfully translate his experience in the military to a career as a police officer. He is also raising his two- year-old daughter River by himself, while his wife, Star Lopez, serves as a lawyer at the Afghan Embassy preparing to return home herself. When Andy Clark returned from war, he and his wife were faced with their son's diagnosis with autism and the costs of his care. Feeling financial pressure, Andy decides to accept a position as a military contractor that requires him to be in Afghanistan for months at a time. Letrice Titus works as a counselor in the Canandaigua VA Hospital where all the calls to the VA Veterans Crisis Line are routed. And Brad Farnsley is at a Warrior Transition Unit, a system established by the Army in 2007 to assist with the transitioning of soldiers they deem medically or psychologically unready for either duty or discharge. Anxious to return to his family for good, Brad is stuck by the complicated bureaucracy and his discharge date remains a mystery.

9:00pm Frontline - United States of Secrets, Part One

Last year, Edward Snowden downloaded tens of thousands of top-secret documents from a highly secure government computer network. The revelations that followed touched off a fierce debate over the massive surveillance operations conducted by the National Security Agency. Now, FRONTLINE investigates the secret history of the unprecedented surveillance program that began in the wake of September 11th and continues today. Through exclusive interviews with intelligence insiders, cabinet officials and government whistle-blowers, part one reveals how the U.S. government came to monitor the communications of millions of Americans and to collect billions of records on ordinary people around the world. 8:00pm Nature - Leave It to Beavers

A growing number of scientists, conservationists and grass-roots environmentalists have come to regard beavers as overlooked tools when it comes to reversing the disastrous effects of global warming and world-wide water shortages. Once valued for their fur or hunted as pests, these industrious rodents are seen in a new light through the eyes of this novel assembly of beaver enthusiasts and "employers" who reveal the ways in which the presence of beavers can transform and revive landscapes. Using their skills as natural builders and brilliant hydro-engineers, beavers are being recruited to accomplish everything from finding water in a bone-dry desert to recharging water tables and coaxing life back into damaged lands.

9:00pm Nova - Escape from Nazi Alcatraz

Colditz Castle, a notorious prisoner of war camp in Nazi Germany, was supposed to be escape-proof. But in the dark days at the end of World War II, a group of British officers dreamt up the ultimate escape plan: in a secret attic workshop, they constructed a two-man glider out of bed sheets and floorboards. Their plan was to fly to freedom from the roof of the castle, but the war ended before they could put it to the test. Now a crack team of aerospace engineers and carpenters rebuild the glider in the same attic using the same materials, and they'll do something the prisoners never got a chance to try: use a bathtub full of concrete to catapult the glider off the roof of the castle. As the hair-raising launch 90 feet up draws near, the program explores the Colditz legend and exposes the secrets of other ingenious and audacious escapes. Then, after a 70-year wait, the team finally finds out if the legendary glider plan would have succeeded.

10:00pm Nazi Mega Weapons - Fortress Berlin

April 1945. Hitler is in the center of Berlin, 10 meters underground, surrounded by four-meter thick concrete walls, safe from any air attack the Allies can throw at him. But the Russians are advancing on the ground: the Red Army is lined up along the Oder River and going for the Fuhrer. Blocking the way are rings of ingenious defenses, kill zones and strong-points that have turned Berlin into a fortress. At the heart of this fortress is the Fuhrerbunker.

7:30pm California's Golden Parks - Shasta

When most people think of Shasta Lake, they imagine themselves on a houseboat enjoying California's largest manmade reservoir. With 365 miles of shoreline it is a boaters paradise. What most people don't think about is the massive structure that is responsible for holding back the water that creates Shasta Lake. We're talking about 3,460 feet long and 602 feet high Shasta Dam which, is a perfect example of "California's Gold." Construction of the dam started in 1938 and ended in 1945. The spillway is the largest manmade waterfall in the world - three times the height of Niagara Falls. Shasta Dam has the second largest mass of any dam in the United States. In this adventure, Huell and Luis get a behind the scenes look at this engineering marvel. Miles of tunnels and millions of gallons of water make for an exciting day, but there is another aspect to the Shasta Dam - the human element. It is the people who built the dam, the people that poured concrete 24 hours a day for 5 1/2 years and the countless other jobs that make this structure such a gem. Huell meets several of the original dam workers and listens to their stories about the glory days of Shasta Dam.

9:00pm American Masters - Plimpton! Starring George Plimpton As Himself

American Masters showcases the remarkable life of famed participatory journalist George Plimpton: writer, editor, amateur sportsman, actor and friend to many. The documentary is both a chronicle of one of the last century's most intriguing characters, as well as a cinematic adaptation of his nuanced and funny literary style. Using Plimpton's own narration, interviews with friends, family and contemporaries, and previously unseen archival material, the film creates a compelling portrait of a one-of-a-kind person who lived fully, strangely and incredibly. Plimpton co-founded and worked as the editor of The Paris Review for 50 years; hung out with U.S. Presidents; played quarterback for the Detroit Lions; got Willie Mays to pop out in Yankee Stadium; photographed Playboy models; played goalie for the Boston Bruins; performed with the New York Philharmonic; acted alongside John Wayne, Warren Beatty and Matt Damon; and authored more than 15 books, including Paper Lion. Sharing these experiences and more, Plimpton! Starring George Plimpton as Himself is about football, literature, magazines, fireworks, hockey, movies, presidents, lawn chairs, geniuses, and the true tall tale that brought them all together. Directed, written and produced by Tom Bean and Luke Poling.

8:00pm Coming Back with Wes Moore - Fitting In

In episode two, host Wes Moore reflects on the idea of fitting in when you and the home you are returning to is fundamentally changed by war. Wes follows up with Andy Clark as he prepares to return to Afghanistan as a military contractor and Brad Farnsley as he struggles to accept his situation at the Warrior Transition Unit. He also meets Bobby Henline, who's body was more than 40 percent burned when his Humvee was hit by an IED and has since found himself on stage as a stand-up comedian. But he still struggles with PTSD, which is making it difficult to cope with his tumultuous family life and straining his relationship with his wife. Taylor Urruela lost his right leg to an IED two days before he was set to leave and now has a prosthetic limb. He now attends the University of Tampa to study Sports Management, while at the same time plans to try out for their baseball team. Earl Johnson is determined to use the skills he learned in the military to remake his neighborhood - Baltimore's infamous Oliver. Working with Operation Oliver, he cleans up trash, boards up abandoned homes, and works as a conduit between the police and drug dealers. But his zealous drive is putting a tremendous strain on his relationship with his wife, Zina. And his past military service also comes into question, revealing a series of secrets that even his wife is unaware of.

9:00pm Nazi Prison Break

October 14th 2013 was the 70th anniversary of an event that shook the Nazi party to its core. In east Poland, at the remote Nazi death camp of Sobibor, 300 Jewish prisoners staged a bloody break out. To mark the anniversary, this film travels back Sobibor with the last remaining survivors to reveal their extraordinary story of courage, desperation and determination. The film uses brutally honest drama-reconstruction and first hand testimony to reveal the incredible escape story. The multi-layered plot unfolds like a Hollywood blockbuster -- from the last-minute change to the escape plan forced by an unexpected arrival of a train load of SS soldiers, to the systematic luring of individual camp guards to separate locations and different, highly creative deaths, yet every terrible and inspiring moment of this story is absolutely true. 10:00pm Frontline - United States of Secrets, Part Two

In the second part of "United States of Secrets," FRONTLINE explores the role of Silicon Valley in the National Security Agency's dragnet. As big technology companies encouraged users to share more and more information about their lives, they created a trove of data that could be useful not simply to advertisers, but also to the government. The revelations of NSA contractor Edward Snowden would push Silicon Valley into the center of a debate over privacy and government surveillance. (Next Air 05/21/14 03:00am)

7:30pm California's Gold - Wooden Boots

They come in all shapes and sizes and many date back to the early part of this century. All have been lovingly restored by their owners and are meticulously maintained. In short, they're some of the most beautiful wooden boats ever made. Host Huell Howser gets a close look at these boats as he attends the 24th annual Concours d' Elegance which is dedicated to the preservation and celebration of the wooden boats that have graced Lake Tahoe since the 1920s. He not only talks with the owners about the rich history of their individual boats, but goes out on the clear waters of Lake Tahoe for a ride on some of the fastest boats. It's all part of Wooden Boat Week sponsored by the Tahoe Yacht Club, and after you see these spectacular boats for yourself, you'll agree they are very much a part of "California's Gold."

8:00pm Nature - The Gathering Swarms

This program looks at some of the most extraordinary swarms on the planet, including a view from inside a locust swarm, mayflies along the Mississippi, 17-year cicadas, and brine fly hatches over Lake Victoria. Superswarms of finch-like quelea in Africa merit attempts at control through assaults on their roosts, while aggressive swarms of silver carp in North American seem able to overcome any kind of restraint. Dangerous swarms of killer bees, however, can be controlled to the point that they can be worn as a human bee suit. But beyond the power of sheer numbers, increasingly complex and organized swarms eventually give rise to swarm intelligence that allows complex decisions to be made.

9:00pm Nova - Bombing Hitler's Dams

In 1943 a squadron of Lancaster bombers staged one of the most audacious raids in history -- destroying two gigantic dams in Germany's industrial heartland and cutting the water supply to arms factories -- with a revolutionary bouncing bomb invented by British engineer Barnes Wallis. Wallis and the pilots of 617 Squadron -- a lively mix of Britons, Australians, Americans and Canadians -- were hailed as heroes and dealt a mighty blow to the German war machine. In this program, NOVA recreates the extreme engineering challenges faced by Wallis and the pilots with the aid of six spectacular experiments. A crack team of experts including dam engineers, explosives specialists, mechanics and aircrew step into the shoes of the Dambusters and attempt to overcome each obstacle in turn.

Repeat of 05/22/14 04:00am

In episode two, host Wes Moore reflects on the idea of fitting in when you and the home you are returning to is fundamentally changed by war. Wes follows up with Andy Clark as he prepares to return to Afghanistan as a military contractor and Brad Farnsley as he struggles to accept his situation at the Warrior Transition Unit. He also meets Bobby Henline, who's body was more than 40 percent burned when his Humvee was hit by an IED and has since found himself on stage as a stand-up comedian. But he still struggles with PTSD, which is making it difficult to cope with his tumultuous family life and straining his relationship with his wife. Taylor Urruela lost his right leg to an IED two days before he was set to leave and now has a prosthetic limb. He now attends the University of Tampa to study Sports Management, while at the same time plans to try out for their baseball team. Earl Johnson is determined to use the skills he learned in the military to remake his neighborhood - Baltimore's infamous Oliver. 8:00pm Shelter Me - Second Chances

SHELTER ME is an inspiring series that celebrates shelter pets with uplifting stories. Episode 3, "Shelter Me: Second Chances," hosted by Edie Falco shows how these pets improve people's lives when given the opportunity. The first story is about incarcerated juveniles whose lives are changed by their interaction and connection with shelter dogs. The detention center is adjacent to a public animal shelter. Dogs are paired up with the kids who are then responsible for training and taking care of them 24/7. The dogs are then adopted by people in the community at a ceremony inside the prison. The kids are forever changed. They learn empathy, responsibility and other life skills. Renowned street poet, Steve Connell, performs an original piece about shelters being a place of hello, not a place of goodbye. This moving piece, filmed in an empty shelter, shows a world of possibilities when people get involved with their local shelters. We conclude this powerful episode with a professional photographer teaching volunteers and the public how to take a great picture of a shelter pet. This fun, upbeat segment shows why taking great photos can make all the difference in getting people to visit their local shelter and adopt a new family member. Every year, 3-4 million dogs and cats are euthanized in America's shelters. Shelter Me focuses on the success stories to show what happens when these incredible animals are given a second chance. Shelter Me is about hope, helping others and making a difference.

9:00pm Death and the Civil War: American Experience

From filmmaker Ric Burns, "Death and the Civil War" explores an essential but largely overlooked aspect of the most pivotal event in American history. With the coming of the Civil War and the staggering casualties it ushered in, death entered the experience of the American people as it never had before -- permanently altering the character of the republic, and the psyche of the American people. The work of contending with death on an unprecedented scale propelled extraordinary changes in the inner and outer life of Americans-- posing challenges for which there were no ready answers when the war began -- challenges that called forth remarkable and eventually heroic efforts as Americans worked to improvise new solutions, new institutions, new ways of coping with death on an unimaginable scale. Based on Drew Gilpin Faust's groundbreaking book, This Republic of Suffering -- and broadcast in conjunction with the 150th anniversary of Antietam, the bloodiest day in American history -- the film tracks the increasingly lethal arc of the war, from all but bloodless opening, through the chaos of Shiloh, Antietam, and Gettysburg -- down through the struggle, in the war's aftermath, to cope with an American landscape littered with the bodies of hundreds of thousands of soldiers, many unburied, most unidentified.

8:00pm Coming Back with Wes Moore - Moving Forward

In episode three, host Wes Moore highlights the drive veterans often have of finding a new mission. Revisiting Taylor Urruela, his immediate mission is succeeding in the competitive tryouts for the University of Tampa baseball team, despite the fact that he's missing a leg. He is also finding meaning in Vet Sports, an organization he co-founded that helps veterans socialize through playing a variety of sports. Bobby Henline is still on his new mission of helping others through his comedy, but his PTSD is still interfering with his home life. His personal mission is to overcome this and fix his relationship with his family. Earl Johnson, whose lies have caught up with him in the previous episode, struggles to keep his mission of revitalizing the Oliver. Tammy Duckworth, currently a Congresswoman from Illinois, was a helicopter pilot in Iraq and the survivor of a crash that caused her to lose both of her legs. In honor of those who saved her, Tammy now has a mission to continue serving the public and be a voice for her fellow vets. Finally, Wes meets Stacy Pearsall who was a war photographer who was hit by an IED in Iraq and now suffers with mild brain damage. Though she was told she'd never be able to be the photographer she once was, she now travels the country taking portraits of veterans as part of the Veteran's Portraits Project.

9:00pm D-Day Uncovered

This program charts the vital statistics behind D-Day. It asks what it took to launch the greatest invasion in history. The film examines the numbers behind the operation taking in everything from strategy to logistics; probability analysis to operational decisions. It conveys the enormous scale of the operation through innovative visualization, such as LiDAR scanning of the Normandy beaches which is accurate enough to be used as forensic data by the police. These include the defenses above and below ground which means that an accurate 3D model of the invasion will be able to be built. For example, over 5,000 ships delivered 30,000 military vehicles and 160,000 soldiers onto the beaches. Although there was 80 miles of coastline to aim for, only 5 miles of beach could be landed on and once on shore the men and machines had to pass through the eye of a needle -- a series of narrow exits whose total width measured 80 yards. 7:30pm California's Gold Blue Angels

Repeat of 04/28/14 07:30pm

They're one of the most famous air squadrons in the world -- serving as positive role models and goodwill ambassadors not only for our Navy, but for our country. We're talking about the Blue Angels who, since first formed in 1946, have been demonstrating their flying skills and maneuvers to literally millions of spectators each year. And for over 30 years the Blue Angels have been a part of "California's Gold." Since 1967 the squadron has spent the winter at Naval Air Facility, El Centro, training pilots and new crew members. The good weather and open spaces make this a perfect place to practice and, over the years, squadron members have become a welcome part of the community in Imperial County during their three months of intensive preparation for the 70 air shows they fly each season. On this particular adventure host Huell Howser accepts an invitation to spend a couple of days with the Blue Angels and ends up not only watching them train, but actually gets to go up with them in an F/A18 Hornet for the ride of a lifetime. Huell also meets former Blue Angel pilots who talk about the "good old days," and visits with local citizens who talk about the pride the community of El Centro feels in having the squadron there each winter. All in all, it's a fast-paced, high-powered, high altitude adventure in search of "California's Gold."

8:00pm Nature - American Eagle

Unique to North America, the bald eagle is the continent's most recognizable aerial predator, with a shocking white head, electric yellow beak and penetrating eyes. In the 1960s, this symbol of the United States became an emblem of environmental degradation, as the pesticide DDT and other human pressures brought it to the brink of extinction. Following their protection as an endangered species, bald eagles have come roaring back. Photographed by three-time Emmy-winning cinematographer Neil Rettig, this first-ever HD hour on bald eagles focuses on the drama of the nest. Even in the best of times, it's a surprisingly tough struggle to maintain a one-ton home and raise chicks until they can hunt on their own. This is an intimate portrait of these majestic raptors' lives in the wild.

9:00pm Nova - D-Day's Sunken Secrets

On June 6, 1944, the Allies launched the biggest armada in history to invade the Normandy beaches and liberate Europe from the Nazis. In less than 24 hours, more than 5,000 ships crossed the English Channel, along with thousands of tanks and landing craft and nearly 200,000 men. Throughout the operation hundreds of ships sank running the gauntlet of mines and bunkers, creating one of the world's largest underwater archaeological sites. Now, NOVA has exclusive access to a unique collaboration between military historians, archaeologists, and specialist divers to carry out the most extensive survey ever done of the seabed bordering the legendary beachheads. Dive teams, submersibles, and underwater robots discover and identify key examples of the Allied craft that fell victim to German shellfire, mines and torpedoes. The team uses the latest 3D mapping tools to plot the relics on the sea floor. Highlighting the ingenious technology that helped the Allies overcome the German defenses, "D-Day's Sunken Secrets" unfolds a vivid blow-by-blow account of the tumultuous events of D-Day and reveals how the Allies' intricate planning and advanced technology was vital to assure the success of the most ambitious and risky military operation ever launched.

9:00pm National Memorial Day Concert

Joe Mantegna and Gary Sinise co-host the 25th anniversary broadcast of the NATIONAL MEMORIAL DAY CONCERT, a night of remembrance honoring the service and sacrifice of our men and women in uniform, their families at home and all those who have given their lives for our country. They are joined by an all-star line-up in performance with the National Symphony Orchestra under the direction of top pops conductor Jack Everly. Featuring a unique blend of uplifting musical performances and dramatic readings, the program airs from the West Lawn of the U.S. Capitol before a concert audience of hundreds of thousands, millions more at home, as well as to our troops serving around the world on the American Forces Network. Mantegna and Sinise, two acclaimed actors who have dedicated themselves to veterans' causes and supporting the troops in active service, are co-hosting for the ninth consecutive year.

10:30pm Yellowstone: Land to Life

People come to Yellowstone primarily because of the unusual thermal features and opportunities to view wildlife, often not realizing they are standing on one of the world's largest active volcanoes. This film presents an interpretation of the sweeping geologic story of Yellowstone, from glaciation to mountain-building to the gigantic caldera of a volcano. "Yellowstone: Land to Life" was filmed over two years in all four seasons and delves deeply into the significance behind the scenery. It also explores the bonds between the landscape and biology -- how Yellowstone's geology influences where life exists and how it evolves. The film also contemplates our connection as well: humankind's relationship to Yellowstone, the world's first and most famous national park.
